UNDER ARMS NIGHT AND DAY.

Twenty-Five Thousand Troops Between Marial and Majana.

DECISIVE ENCOUNTER EXPECTED

Probabilities of a Meeting Between Spanish Troops and Cubans Under Maceo—Reported Skirmishes in Several Places.

Havana, April 10.—According to reports received here there have been a number of engagements between the insurgents and Spanish troops at different parts of the Spanish trocha, and a decisive encounter between the rebels under Maceo and Spanish troops is expected to occur very soon. Twenty-five thousand troops are stationed along the line between Marial and Majana, and are kept under arms night and day.

The troops forming the garrison at Guanajay expected that an attack would be made by the rebels last night and in anticipation of such an event the stores in the place were all closed and the troops remained on duty all night.

Col. Hernandez reports a battle between his command and parties of rebels under Maceo and Acia in the district of Las Cabas. The insurgents lost four killed.

The Spanish gunboat Alpria and the fort at Cabanas on the north coast of the province of Pinar Del Rio have had a battle with the enemy's forces.

CLARK'S CORRESPONDENCE.

Insurgents Attacked a Town and Were Repulsed.

(From a Staff Correspondent of the United Press.)

Havana, April 10.—Insurgents attacked the town of Guira De Melena, province of Havana, in considerable numbers last night. They attempted to deceive the garrison with cries of "Viva España" and bugle calls employed by the Spanish troops. The ruse did not work, however, and the rebels were repulsed with some losses. The insurgents burned the Victoria estate near the town. They are believed to belong to the party of Nunez.

The Alcade of Guira reports the rebels moving west towards Alquisara.

Another party of rebels burned the town of San Matias, situated near the coast of Havana.

There are said to be 2,000 rebels in the vicinity of San Miguel, between Havana and Matanzas. The leader of this force is not known.

Guayabel, near the western line of the province of Havana, has been burned by the insurgents.

The official report of the fight on the Fermina ranch, near Jevellanos, states that the rebels lost 8 killed. The troops lost seven wounded. The Spaniards pursued the rebels and in skirmishes killed 20 without loss to themselves.

Twenty-four volunteers, while foraging near Camaguani, were attacked by rebels, who used machetes. A lieutenant and four volunteers were killed and a lieutenant was wounded. A band of rebels commanded by "Lacleotio" and others entered the town of Bermiju, province of Matanzas, and despite the heroic resistance of the troops in the fort, secured some stores and burged some houses. The rebels numbered 600 and were well armed and well mounted.

Large numbers of rebels are coming west.

The column commanded by Gen. Oliver attacked a rebel camp near Remedios on Sunday last. The camp was ambushed 10 meters from the camp. The rebels threw dynamite bombs and fired explosive shells. The Spaniards lost a captain and four soldiers killed and one lieutenant and 25 soldiers wounded. CLARK.

BERMUDA RETURNED.

Informaton Regarding Experiences Was Refused.

Philadelphia, April 10.—The alleged filibustering steamship Bermuda arrived here to-night from Puerto Cortes. Honduras, with a cargo of bananas. Whatever the exciting experience of the Bermuda may have been in effecting a landing under the searchlights of the Spanish man-of-war of the men and arms she took to Cuba and her detention in Honduras, these aboard were by no means ready to relate.

Absolutely nothing could be gleaned from those aboard the vessel and reporters were excluded from the ship. The chief engineer refused to give any information of the vessel's voyage. Filibustering is evidently too exciting a pastime for him as the only thing he would say that bore upon the voyage was "He had had enough and did not want to go back again."

Filibusterers Acquitted.

New York, April 10.—The alleged Bermuda filibusterers who have been on trial in the United States criminal court for ten days were this evening acquitted. The jury was out but 10 minutes. Judge Brown ordered the discharge of the defendants and directed that such of their property as had been seized be returned to them.

When the verdict was announced there was much hand-clapping which the court officers only made a failure at stopping.

FATAL GERMAN DUEL.

Von Kotze & Oglelgis Hail a Meeting Near Potsdam.

Berlin, April 10.—A duel with pistols was fought this morning at Potsdam between Lieberight Von Kotze, court chamberlain and Lieut. Von Glatter, master of ceremonies of the Prussian court, in which the latter was severely wounded in the right breast. The conditions of the duel were that the principals should fire ten paces apart and shoot until one disabled.

The conflict grew out of the exchange of letters of anonymous letters affecting the character of a number of court personages which Von Kotze was suspected of having written. He was subsequently exonerated, however, and has since fought duels with several encounters with persons who had accused him or intimated their suspicions of his guilt.

Baron Von Schrader was taken to a hospital and Dr. Burgmann was summoned to his bedside. It was found that he had been shot in the abdomen and it is feared that his wound is fatal.

Proceeding Westward.

Chicago, April 10.—Hotelmen and their families by hundreds from New York City and State, Boston and other New England cities, from the Western and Middle States and from the city concentrated in special trains of princely splendor at the Dearborn station to-day enroute to the trysting place for the annual meeting of the Hotelmen's Mutual Benefit Association, Los Angeles.

The New England delegation nearly 100 strong, came in by special train over the Erie. George H. Bowker of Holyoke, Mass., was chairman of the delegation. Their train left at 2:30 this afternoon over the Santa Fe. They were preceded by the New York delegation in a special train over the same road and the Chicago and western hotel men also in a special train, made the third party of pleasure seekers to leave over that road for the Pacific coast. All were entertained at the Auditorium during their stay here.

DEATH OF GOVERNOR JONES.

Nevada's Executive Died After Several Months Illness.

San Francisco, April 10.—Gov. John Jones of Nevada, who has been critically ill in this city for several months from cancer of the stomach, died at an early hour to-night. He was 55 years of age, and is survived by a widow and family.

Gov. Jones was elected on the silver ticket in 1891. He will be succeeded in office by Lieut. Gov. Reinhold Sadler.

COLONEL JOHN A. COCKERILL.

Well Known Newspaper Correspondent Died of Apoplexy.

New York, April 10.—A special cablegram to The Evening Telegram from Cairo, Egypt, says:

"Col. John A. Cockerill, the well-known newspaper correspondent, died of apoplexy at 10 o'clock yesterday."

Well Known and Successful.

"Col. Cockerill, recently arrived here from Japan, where he had spent some time as the correspondent of the New York Herald. He was representing the same paper in Cairo."

John A. Cockerill was one of the most successful and widely known newspaper men in the United States. He entered the profession when a mere boy and except for the period when a drummer at the front in the Civil war, he continued in it, rising ever higher to positions of greater authority and wider usefulness. Col. Cockerill has been at different times editor of the Washington Post, the Baltimore Gazette and the St. Louis Post Dispatch, New York World and Commercial Advertiser.

In February, 1893, he went to Japan as correspondent of the New York Herald and his work there attracted world wide attention. Col. Cockerill left Japan only a few weeks ago, after the Mikado had bestowed upon him one of the most coveted decorations in it of the Sacred Treasure. He was resting in Cairo for a while studying the Anglo-Egyptian campaign before leaving for home when he was suddenly stricken.

WIND AND HAIL.

Severe Storm Visited Southwestern Iowa.

Ottumwa, Ia., April 10.—A fierce wind and hail storm visited southwestern Iowa early this morning, amounting almost to a cyclone in places. A heavy rain accompanied by large hail stones and a high wind visited Lucas and caused the inhabitants to seek protection in caves. South of town the storm assumed the velocity of a cyclone. Scoville's barn, containing a carriage and farm implements, was blown away and scattered all over that section; similar occurances are also reported in other places.

It is impossible to estimate the damage. No one was hurt. A number of farm buildings were blown away, and hundreds of panes of glass were smashed. In Lucas county houses, barns and trees were demolished. The damage and ruin throughout the section is very heavy. Hail fell two or three inches deep along the Burlington and Wabash railroads.

AITIER MATT. ADAMS.

Under Sheriff Clay Will Go To England With Necessary Papers.

Washington, April 10.—Perry A. Clay, under sheriff of Arapahoe county, Colorado, called at the State Department today and secured the papers necessary to obtain the extradition from England of Matt S. Adams, the late clerk of that county, who was arrested at Southampton last week on the charge of being a defaulter to the extent of $16,000. Adams is held in London. Mr. Clay will sail for England without delay, armed with the papers obtained from the State Department, and the necessary evidence and a warrant from President Cleveland constituting him a law officer of the United States.

ABLE TO HOLD OUT.

British Forces in Matabeleland May Take the Offensive.

London, April 10.—In the House of Commons today Rt. Hon. Joseph Chamberlain, Secretary of State for the Colonies, stated in reply to a question on the subject that the British forces now in Matabeleland would be able to hold out against the natives, who are now in revolt and that they would even take the offensive when the whites in the outlying districts had been gathered.

Sir Hercules Robinson, governor of the Cape Colony, he said, had expressed the opinion that these forces together with the companies which were being formed at Mafeking, would be sufficient to crush the insurrection.

Mr. Chamberlain continuing, said, that he had nevertheless informed Sir Hercules Robinson that the government would sanction any preparations which he might deem necessary for a prompt suppression of the uprising and was ready to reinforce, if required, the garrisons in the Cape Colony and Natal. This statement was received with cheers.

LOST WHILE DELIRIOUS.

Wandered from a Hospital and Found Dead.

New Whatcom, Wash., April 10.—The decomposed remains of George W. Lysle, formerly a prominent coal merchant and later a large land owner and county commissioner of Whatcom county, were found in the bay here this morning. While in a delirious condition, Lysle wandered away from a local hospital six weeks ago and though diligent search has been constantly maintained no trace of him was discovered until to-day.

ACCEPTED THE CHALLENGE.

Cyrus E. Page, Wanted to Act on Behalf of Linton.

Butte, Mont., April 10.—It has just been made public that when Congressman Linton declined to accept the challenge of Capt. Thomas Phelan of Kansas City, it was accepted in his behalf by Cyrus E. Page, a well-known old-timer of Butte. Page selected rifles at 75 yards, but Phelan claimed Page was not the challenged party and wanted to use rifles at 40 paces. Page said to-day that he believed Phelan was a coward and a blowhard, and claims he is the challenged party, having simply accepted the challenge for Linton.

Will Investigate.

San Francisco, April 10.—On Monday next the British consul general will commence an inquiry into the sinking of the British ship Blairmore, and the loss of six of her crew in the bay yesterday. It is estimated that it will cost $50,000 to raise the sunken vessel. There is no hope for the recovery of the bodies of the drowned seamen until the vessel has been brought up.

In Session 102 Hours.

Ottawa, Ont., April 10.—The House of Commons in Committee of the Whole, is still wrestling with the motion that the committee rise and report progress on the Manitoba school question, which was made at 2:30 o'clock this morning. The House has now been in continuous session 102 hours.

OLIVE WREATH FOR A PEASANT.

Long Distance Race in the Olympic Games.

FROM MARATHON TO ATHENS

Greeks Won All Three Places—Applauded by Princes and People—American Sustained Their Reputation in Other Events.

Athens, April 10.—The weather changed last night and this morning the sun rose in a cloudless sky. The atmosphere was balmy and springlike, and every condition was favorable for the carrying out of the fifth day's programme of the Olympic games, which included the final heats of the unfinished events of Monday and Tuesday. The American competitors sustained their reputations as athletes and carried off a goodly share of the honors. An enormous crowd was present.

The long distance race from Marathon, over the historic road followed 15 centuries ago bearing the news of the defeat of Persians, was won by Lauis, a Greek peasant, and his victory was greeted with thunders of applause. This victory has done much to soothe the disappointment felt by the Greeks at the downfall of some of their champions.

In this event there were 20 competitors, including Arthur Blake, of the Boston Athletic association. He was not able to run the 24 miles, and fell out. Black, the Australian, was also forced to abandon the race. Both he and Blake dropped out exhausted when they had covered half the distance. When the winner crossed the finishing line, the spectators rose to their feet and for a time every sound was silenced by a great roar of praise.

Prince Constantine, the heir apparent to the throne, was, with other members of the royal household, in the box set apart for the use of the King and his family. He left his seat and, walking to the winner, shook him heartily by the hand. The enthusiasm was renewed when Vasilakes, another Greek, came in second, and Belokal, also a Greek, came in third.

The prize, in addition to an olive wreath, is a handsome cup given by M. Breal, a well-known French savant and writer of mythologic subjects. The time of the winner was 2 hours and 48 seconds. Vasilakes covered the distance in three hours.

Other Events.

Prior to the finish of this race, other events were decided as follows:

The 100 meters race was won by Thomas E. Burke of Boston, in 12 seconds. Hoffman, the German champion, was second.

The high jump was won by Ellery H. Clark of Harvard, a member of the Boston team, who covered 181 centimeters.

The hurdle race of 110 meters, was won by Thomas P. Curtis of Boston, in 17 2-5 seconds. Goulding, the English champion, was second.

The contests on the parallel bars, were won by Flatow, a German, and Zutter, a Swiss. The contests at climbing the pole were won by the Greek athletes, Andri, Kepoulos and Nenckis. The pole jump was won by W. W. Hoyt of Harvard, of the Boston Athletic association, who scored 3.35 meters. A. C. Tyler of Princeton University, was second, with 3.20 meters.

The Paine brothers, Americans, won the rifle and revolver contests.

In the high jump James B. Connolly of the Suffolk Athletic club, and Robert Garrett, captain of the Princeton team, each scored 1.65 meters.

The city was again illuminated tonight.

GERMAN ANARCHISTS.

Reports from Berlin of a Wide Organization.

Berlin, April 10.—The Herald Bureau circulates the report that the police have discovered in South Germany the existence of a secret anarchist organization of wide ramifications. While pursuing this discovery, searched the houses of the well-known anarchists, Lindemann and Huber, in Munich, where they seized 1,900 collection tickets declared to be issued for the solicitation of funds, together with a large number of copies of a leading socialist newspaper.

HE SHOT SIX.

An Attorney Killed His Client, His Own Wife and Children and Himself.

Pentwater, Mich., April 10.—S. B. Minshall, an attorney of this town, made a probably successful attempt last night to assassinate William B. O. Sands, president of the Sands & Maxwell Lumber company. After leaving Sands for dead, Minshall went to his home and shot his wife and three children dead and then committed suicide by shooting himself through the head.

Sands had been working in the office of the company and started home about 8:30 o'clock. When within a few rods of his home, a man jumped out from behind a tree and fired at him. Sands broke into a run, the would-be assassin following him close and firing at his victim every few seconds. Five shots in all were fired, two striking Sands in the arm and one in the leg. As Sands reached his door, he fell, and his assailant, probably thinking he had killed him, turned and fled. Sands cries for help aroused members of his household and a physician was summoned and the police notified.

Sands's right arm was so badly shattered that it was found necessary to amputate it, and he is in a critical condition from the shock. There was no known motive for the attempt on Mr. Sands's life, as he was not known to have an enemy.

The police were unable to unearth a clew and about 4:30 o'clock it was decided to obtain the services of E. D. Kinney, Mr. Sands's attorney. A messenger was sent to his house. Failing to rouse any of the family, he became suspicious that something was wrong and forced an entrance. Entering a bed room the messenger found the bodies of Minshall, his wife and three children. All five had been dead for some hours. It is supposed that Minshall after having killed Sands, as he supposed, went to his house, shot his wife and three children and committed suicide.

The motive for the tragedy has not yet developed. Sands is not expected to live.

No Substitute Money.

Sullivan, Ind., April 10.—The first of a series of arrests under the United States statutes relating to metal coins and tokens and coupons, were made by United States Marshal Hawkins at Linton today. If they hold good it will affect all manufacturers, mine owners and merchants who are using metal checks or tokens or coupon books as a matter of convenience or otherwise.

It has been the policy of mine operators to issue to miners before pay day metal checks, which were used to represent money values. Merchants also used these checks, which have been a money equivalent in all mining districts for years. Those arrests included Nathan Dixon of the Summit Coal company, and Finney Strong, president of the Linton Supply company. Some of the tokens were confiscated.

The two companies alone have over $50,000 in tokens and coupons in circulation.

CABINET MEETING.

No Programme of Action on Cuban Affairs Submitted.

Washington, April 10.—The cabinet meeting to-day lasted barely one hour and a half, and was apparently devoid of any exciting features. No programme of action on Cuban affairs was submitted by the President, nor were any of the other plans outlined in sensational dispatches brought forward. Every indication points to the President taking his own time and acting in his own way, if he acts at all, on the concurrent Cuban resolutions of Congress.

Much emphasis is laid by those supposed to be close to the President upon this passage in his annual message: "We, whatever may be the traditional sympathy of our countrymen as individuals with a people who seem to be struggling for larger autonomy and greater freedom, deepened as such sympathy naturally must be in behalf of our neighbors, yet the plain duty of their government is to observe in good faith the recognized obligations of international relationship."

FIFTY-FOURTH CONGRESS.

Yesterday's Proceedings in the House and Senate.

Washington, April 10.—The main portion of the Senate to-day was taken up by the Indian appropriation bill, the House proposition abolishing the system of contract schools for Indian children giving rise to a long and rather interesting discussion. There was almost a unanimity of sentiment against a sudden change of system from contract schools to government schools, and there was an almost equal unanimity for such a gradual change as would not do injustice either to the religious societies which had established the schools, or to the Indian children who attended them. The matter went over, however, without action.

Later in the day a joint resolution relating to the imprisonment of Mrs. Maybrick in England, was introduced by Mr. Call of Florida in the apparent absence of Mr. Sherman of Ohio, chairman of the Committee on Foreign Relations, who declared that such a proposition should not have been introduced as the Senate had no jurisdiction over the subject. He moved to lay the joint resolution on the table, but finally consented to have it referred to the Judiciary committee, which disposition was made of it.

A bill giving the aid of the government to the Transmississippi and Industrial exposition at Omaha in 1898 was passed.

HOUSE.

Authorized Sale of Land for Colorado Springs Water Purposes.

Washington, April 10. General debate was concluded to-day upon the "oleo cheese" bill, which was begun yesterday afternoon. The chief advocates of the measure were Messrs. Grosvenor (Rep.) of Ohio, Tawney (Rep.) of Minnesota and Dolliver (Rep.) of Iowa.

It was opposed by Messrs. McMillan (Dem.) of Tennessee, Otey (Dem.) of Virginia, Evans (Rep.) of Kentucky, Lenney (Rep.) of North Carolina, and others.

The bill will be further considered to-morrow under the five-minute rule for amendment. The objection of several of those who spoke to-day was not to the principal of the bill, but to the extent of taxation sought to be imposed. Efforts will be made to reduce the rate of tax and the schedule of license and if this be accomplished the opposition to the bill will be comparatively feeble.

Senate bill was passed authorizing the sale of 240 acres on Pike's Peak, part of an abandoned military reservation, to the city of Colorado Springs, Colo., for water purposes at the rate of $1.25 an acre.

The appropriation bill for fortifications and coast defenses for the year ending June 30, 1897, was reported by Mr. Hainer (Rep.) of Nebraska and placed on the calendar. Among the bills passed by the House was a bill appropriating $1,250 to repay J. J. Lintz for money withheld from his salary as custodian of public property at Erie, Pa., in 1894, for loss of property for which he was not responsible.

At 5 o'clock the House took a recess under the rules till 8 o'clock, the evening session to be for the consideration of private pension bills.

Widows' Pensions.

The evening session of the House was marked by a slight outbreak in the Republican ranks against the policy of increasing the pensions of widows of general officers. Several such bills had been acted upon by the House in Committee of the Whole, and when the last one came up, Mr. McCall (Rep.) of Tennessee, said that if that policy was to be continued, while widows of private soldiers could get no such consideration, he, for one, did not propose to attend any more Friday night sessions.

Mr. Pickler (Rep.) of South Dakota, replying to Mr. McCall's remarks, said the maximum limit of the pension of the widow of a private soldier had been increased from $8 to $30 a month, but there had been no increase of the limit of officers' widows' pensions.

A lively colloquy occurred between Messrs. Pickler and Hemenway (Rep.) of Indiana, the latter of whom questioned the statement of the former regarding the committee's action on bills. Mr. Pickler declined to be interrogated by Mr. Hemenway, and the latter cried: "You don't dare to permit a question," to which Mr. Pickler replied that the gentleman did not want any information; that he had misrepresented the committee in what he said.

During the evening nine bills were acted upon in Committee of the Whole, and three of them were passed in the House before the hour of 10:30 came, an adjournment until to-morrow.

IMPROVED FORTIFICATIONS.

Unusually Large Appropriations for the Coming Year.

Washington, April 10.—The House Appropriations Committee to-day completed the fortifications appropriation bill for the coming fiscal year and directed Mr. Hainer of Nebraska to report it to the House.

The measures as agreed to recommend specific appropriations amounting to $5,842,855, and in addition gives authority to the Secretary of War to make contracts involving the further expenditure of $5,000,000 under the engineer and ordnance departments, making a total expenditure authorized by the bill of $11,284,913.

Among the items in the bill is one appropriating $5,000,000 for gun and mortar batteries and $250,000 for sites for fortifications. Another item appropriates $4,500 for the improvement of Benicia arsenal, California.

The bill continues appropriations in continuance of the policy adopted by the Fifty-fifth, Fifty-first, Fifty-second and Fifty-third Congresses. The appropriations for the eight fiscal years 1889-1896, aggregate $7,480,224, or an average of $2,811,528 per annum.

Complaining of Delay.

London, April 10.—The Times will to-morrow publish a dispatch from Pretoria saying that the Rt. Hon. Joseph Chamberlain, British Colonial Secretary, has again telegraphed to President Kruger, complaining of his delay in deciding upon accepting Mr. Chamberlain's invitation to visit London to discuss matters pertaining to the Transvaal.

DUN'S WEEKLY TRADE REVIEW.

Summary of Commercial Conditions At the Present Time.

NO APPRECIABLE IMPROVEMENT.

Demand for Consumption is Still Below Expectation—Stocks Dull Although Railroad Trade is Heavy—Minor Metals Dull.

New York, April 10.—R. G. Dun & Co. will say to-morrow in their Weekly Review of Trade:

Failures for the past week have been 214 in the United States against 267 last year, and 23 in Canada against 27 last year. The volume of business has not on the whole increased, nor have prices appreciably advanced since April 1, when the range for all commodities was the lowest ever known in this country. Breadstuffs and iron products have risen slightly, but some other articles have declined and the root of the matter is that demand for consumption is still below expectations.

The injury done to winter wheat by storms and frosts at the West will appear from reports to have been considerable. Remarkably low estimates of condition are published by some State authorities, and while there may be the customary exaggerations, there has evidently been much actual loss. The reports hold out not more gloomy than a year ago, and the quantity of wheat which has been 168,761,264 bushels, against 1,146,675,459 to the same date last year.

Stocks have been extremely dull, and yet railroad traffic is heavy. Reports of earnings have not improved. The March statement covering practically all the roads usually reporting, shows an decrease of 4.2 per cent. over last year, but a decrease of 11.2 compared with 1893, and is less satisfactory than returns of January or February. Domestic business reported by clearing house exchanges continues about 10 per cent. smaller than in 1892, though slightly better than last year, the occurrence of Good Friday rendering exact comparison. Foreign trade shows a decrease of nearly 10 per cent. in exports for the week though as much increase in March, while imports gain nearly 20 per cent. though in March the decrease was 11 per cent.

The billet pool and other combinations have raised prices of pig iron and steel, but as yet finished products have advanced scarcely anything, nor has the demand for them increased. The output April 1 was 169,281 tons weekly against 176,583 March 1, but reports of stocks unsold increased 5,000 tons in March, or 2,132 weekly, and there is besides the unknown accumulation of the great steel companies. Prices for coke ovens announced as exported $1.50 higher than last year, and the coke combination makes no reduction but gradually lessens output. While the purchases of pig iron to anticipate future wants have been heavy, actual consumptions is not moderate. Minor metals are dull, but lead is weaker at 3.05 cents, on forced sales West.

Prices of boots and shoes do not change though leaders and bides are a little stronger at Chicago, receipts being small. Wool is weaker with sales for the week the smallest for months. Prices tend lower except fine washed fleece and manufacturers are rapidly reducing production. There is a fair demand in the dress goods branch, but it is estimated that not 2 per cent. of the men's wear machinery is at work. There have also been cotton mills stopping or reducing time this week. Further reduction in shirting prints to the lowest point ever touched failed to increase the demand noticeably.

AGRICULTURAL REPORTS.

Condition of Winter Grain and Health of Live Stock.

Washington, April 10.—The United States Department of Agriculture this afternoon issued a report of the condition of the winter grain and health of live stock, April 1, 1896, which says that consolidated reports from township, county and State correspondents, show the condition of winter wheat is as follows:

Ohio, 56; Michigan, 82; Indiana, 77; Kentucky, 70; Illinois, 81; Missouri, 75; Kansas, 88; California, 91. Average for the entire country, 77.1; last year, 81.1.

Dry weather at seeding time, from which scarcely a county was exempt, largely retarded or prevented germination and the winter covering of snow was exceptionally scanty.

Rye suffered in most States less than wheat. In Nebraska, Kansas and westward there was less winter killing than usual, owing to the mild season and present conditions are reported favorably.

Condition of horses, 97.6; of cattle, 98; of sheep, 95.5; of swine, 93.3; which is an improvement in every case over last year. The mortality of cattle and sheep was low, explained by the mild winter. The loss of swine was heaviest in the important Mississippi river States: Illinois, Iowa and Missouri, all reporting 20 per cent. or over.

DEMOCRATIC PLANS.

Arrangements for the Convention Favorably Progressing.

Chicago, April 10.—For several hours this afternoon and evening the sub-committee of the national Democratic committee which has charge of the arrangements for the national convention of July 7, was in session at the Palmer house. Those present were: Chairman W. F. Harrity, Philadelphia; J. G. Prather, Missouri; Thomas H. Sherley, Kentucky; Secretary Sheerin, Indiana, and Judge Adam Goodrich, who held a proxy for Congressman Tom Clark. Mr. Harrity also held a proxy for E. C. Wall of Wisconsin. The entire proceedings were conducted in executive session.

A delegation from the local committee was first received and assured the committee that the $10,000 guarantee fund, if the convention was voted to Chicago, that had been guaranteed when the convention was voted to Chicago, that the balance would be forthcoming whenever it was required. This report was regarded as eminently satisfactory. The statement was made unofficially that a check for $5,000, or one-half of the guarantee, would be presented to Chairman Harrity to-morrow.

President John T. Dickinson, who was present, with other officers of his company, submitted data from the contractors showing that the coliseum would be ready for occupancy six weeks in advance of the date set for the convention. Plans of the proposed interior arrangements for the convention was submitted, and it was agreed they should be carefully examined to-morrow.

Nothing was said or done to-day concerning the selection of a sergeant-at-arms, but it is probable that this question will be disposed of to-morrow evening. At the last meeting Chairman Harrity was given to understand that if Pennsylvania wanted the appointment it could have it, and he had about settled upon John J. Curley, formerly of the Philadelphia Record. Mr. Curley, however, cannot spare the time, and Mr. Harrity has no other candidate. This apparently narrows the contest to John S. Cooper of this city and ex-congressman Brookshire of Crawfordsville, Ind. After the selection of a sergeant-at-arms a local committee will take up the matter of press accommodations.

McKINLEY AND BIMETALLISM.

Oregon Republicans Endorsed the Minneapolis Platform.

Portland, Ore., April 10.—The Republican State convention adjourned sine die this evening. The Presidential electors chosen were: E. L. Smith, T. T. Geer, S. M. Yoran and J. F. Captor. John W. Meldrum, Herbert A. Booth, Charles Hilton and Charles H. Dodd were selected as delegates to St. Louis, and instructed to vote for McKinley from first to last.

By a vote of 129 to 8 the Minneapolis platform of 1892 was indorsed, with a financial plank demanding the use of both gold and silver and requesting suitable legislation to maintain the parity of the two metals, "so that the purchasing and debt-paying power of the dollar, whether of gold, silver or paper, shall be at all times equal."

A minority report signed by eight delegates, demanding an out and out gold standard, was thrown out.

Robert S. Bean was nominated for Supreme Court judge.

HARRISON-McKINLEY.

McKinley Men Want the Ex-President to Declare Himself.

Indianapolis, Ind., April 10.—There has been a sudden and interesting revival of Harrison-McKinley sentiment within the past two days for a formal demonstration on the part of the friends of McKinley that Harrison shall declare himself on the subject of a nomination at St. Louis or they will insist that the district and delegates at large from Indiana be instructed for McKinley at the coming State convention. In reply to the threat to force instructions for McKinley some of Harrison's friends offered to consent to instructions if so worded that they would leave the delegation free to vote for Harrison if his name was before the convention. This was refused. The McKinley men are very much in earnest and will insist on instructions.

McKinley Delegates.

Freeport, Ill., April 10.—Congressman R. R. Hitt was renominated by acclamation by the Republicans of the Ninth district at to-day's convention. The delegates to St. Louis were instructed for McKinley.

STILL CONSIDERED.

Bill to Settle Indebtedness of Central and Union Pacific.

Washington, April 10.—Ten of the members of the House Committee on Pacific Railways met this afternoon and considered for two hours the bill to settle the indebtedness of the Central and Union Pacific railways to the government which was prepared by a joint sub-committee of the House and Senate a few days ago, the principal provisions of which have been already made public.

The bill, which is a long one, was read by the chairman, Mr. Powers of Vermont, and when each section was finished the various members questioned him as to the separate provisions. No change was made in the measure nor was any conclusion reached by the committee.

The purpose of the members, except those who formulated the measure, was to secure information respecting it. Another meeting will be held on Monday.

C. B. & Q. REPORT.

Reduction in Debt Amounted to Over Four Millions.

Boston, April 10.—The pamphlet report of the Chicago, Burlington and Quincy directors covering the operation of the road for the year 1895 issued to-day shows a deficit on the main system over and above the dividends and all charges of $222,502, as compared with the deficit of the previous year, after paying 4½ per cent. in dividends, of $1,103,999. The capital stock remains unchanged. The net debt, $1,275,500, is for miscellaneous construction. For the first time in the history of the road there was no change in the mileage operated during the year.

The reduction in the debt during the year aggregated $4,111,530, of which $853,500 were bonds matured which were paid and the balance was purchased for sinking funds and cancelled. The net increase of funded debt was $1,612,500, making the total debt $127,122,450. The total amount of stock and bonds outstanding on Dec. 31, 1895, was $300,177,100.

COMMERCIAL CONVENTION.

Call Endorsed by Fifteen Representative Bodies.

Detroit, Mich., April 10.—R. B. Archer, secretary of the Tariff Commission league, to-night sent out a call for a convention of the commercial, manufacturing, labor and agricultural organizations of the United States to be held in Detroit Tuesday, May 26. This call will first be indorsed by 15 representative commercial bodies of the country, two of its signers to be national labor organizations. More than 200 commercial bodies, several of which are national in their character, have already signified their intention of sending delegates to the convention.

The subjects to be acted upon are: The discussion of the ways and means of taking the tariff question out of partisan politics and making it a business question; the improvement of the consular service of the United States and the increase of our foreign trade, especially with the Central and South American republics, and the creation of a department of commerce, manufactures and labor, and of making the chief of such department a member of the President's cabinet.

The convention will be non-political and non-sectarian, and all questions will be discussed from a purely commercial standpoint.

ELECTED WOMEN.

They Will Fill the Offices in a Kansas Town.

Topeka, Kan., April 10.—The enfranchised women of Ellis, Kan., scored a sweeping victory at the recent municipal election. A complete ticket of women candidates was nominated and all were elected with the exception of Mrs. Clara Sheldon, candidate for police judge, who was defeated by a majority of five. Mrs. M. A. Wade, proprietor of a large millinery and dry goods store, was elected mayor, and Mrs. Ollet Gaylord, Mrs. Lillian Hussey, Mrs. Emma Shields and Mrs. Ella Newcomer were elected members of the council by average majorities of 20.

Another Life Lost.

Butte, Mont., April 10.—Another life was sacrificed to-day in an endeavor to rescue the seven men entombed in the Hope mine at Basin. Albert Boulware, one of a party of men was overcome by foul air and expired before he could be taken out. Superintendent Bach says it is not probable that the bodies can be reached in two weeks.

To Represent Alaska.

Washington, April 10.—The Senate Committee on Territories this morning ordered a favorable report on the bill providing for the election of a delegate in Congress from the Territory of Alaska.

Proved Fatal.

Grand Rapids, Mich., April 10.—Mr. Sands died at 7 o'clock this evening from the wounds inflicted by Minshall.

SOME RICH ORE IN THE LILLIE MINE.

From $3,000 to $5,000 Worth Awaiting Shipment.

SHIPMENT FROM THE SPECIMEN.

A Twenty Ton Lot Left the Mine To-day—The Property is Showing Up Very Well—The Dante Has Ore in Several Places.

Special to The Gazette.

Cripple Creek, April 10.—The new steam hoist on the Lillie is now ready to start up. While the machinery has been put in place the men have been at work below and it is understood that from $3,000 to $5,000 worth of ore has been broken and is ready to hoist. The Lillie belongs to the Lillie company, and is located next to the Vindicator, and Christmas, on Bull hill. The steam hoist and the work on this particular portion of the ground has been done by lessees. The steam hoist is a replica to the one being worked on the Vindicator.

The Moore company has suspended the work of sinking the mine temporarily until the water can be handled in good shape. A small pump will be put in operation and will be used until such a time as a chamber at the 650-foot level is made and a permanent pump erected. Everything is said to be in good shape about the mine.

Twenty Ton Shipment.

The Specimen company sent a 20-ton shipment of ore to the new Goldfield sampler to-day. The recent trial shipments made on the ore were most satisfactory, and it is now thought that the recent discovery will prove all and more than was anticipated.

The Ocean View lode, on the saddle between Battle and Bull mountains, is coming rapidly to the front as a shipping mine. A shipment of high-grade ore will be made in a day or so. A sample was taken yesterday across the vein and it showed values of from $200 to $500 to the ton. It is quite probable that the Last Dollar vein has been opened up in this property. A new steam hoist is to be placed at the mine.

The Lulu, Yucatan and Lizzie May lodes, on Battle mountain, have been secured under option by Baron Von Richtofen for the Anglo-Colorado Mining company. The property was secured by Messrs. Bennet and Myers.

A very fine showing is now being made on the Dante which is located just west of the Blue Bird. There is quite a large amount of high-grade stuff in the mine. The bins are being rapidly filled up and a shipment will be made in a few days. In the Johnston shaft an eight-inch streak of ore has been disclosed in the breast of one of the levels and this streak shows values of $800 to the ton. There is ore in all the levels of the mine.

Last Dollar Mine.

The Last Dollar mine, on Battle mountain, is getting into shape to resume shipments and make a big record in the matter of development. The working force has been increased within the past few days and the mine is now in good shape to get out a quantity of ore.

The new steam hoist on the Rigl, on Battle mountain, now owned by an English syndicate, is now in the course of erection. It is claimed that a large quantity of high grade ore has been put up in the workings and that as soon as the hoist is working smoothly there will be lots of development and shipping. In the south end of this claim lessees have opened up a vein which is three feet wide and 21 feet below the surface. Some of the ore taken out runs as high as $20 and better. It is thought that the same vein as has been discovered in the main workings has been opened up.

The Ashby lease on the northeast corner of the Lawrence town site is beginning to look very much like a mine. The work is being done by Messrs. Kellog and Hastian of Cripple Creek, who have sunk the shaft to a depth of 55 feet where the vein is three and one-half feet wide between well defined walls. The vein matter consists of a brown quartz with jasper, while assays as high as $140 to the ton have been obtained for the same. Some little ore is being saved, which will be included in the first shipment.

New York Mining Exchange.

New York, April 10. Other changes are apparently pending on the New York Mining Exchange. Members are not entirely satisfied with the way things are going. They feel that the great mining interests of the West should be represented by a strong body in this city, the financial center of the country. Believing as they do, that, with mining on a more scientific basis than ever, and money being made in good properties, all through the West, the New York public cannot invest in better securities than in good mines, honestly managed. Brokers are demanding that representative New York business men should be placed at the head of the mining exchange.

Total sales yesterday, 3,500 shares. First call to-day, 4,900, including Bedford, 400 at $2.75, and Gold Bar, 4,500 at 14.

FOR THE BARNDOLLAR MURDER.

W. A. Dailey and A. J. Wilkin Arrested in Gillett.

Special to The Gazette:

Gillett, Colo., April 10.—W. A. Dailey and A. J. Wilkin were arrested here to-day for suspected complicity in the Barndollar murder case at Pueblo. The men were taken to Cripple Creek for safe keeping by Deputy Sheriff Granger. The arrests were made by W. D. Mosher, the town marshal. Dailey has been working as a waiter and Wilkin in a policy shop for the past two weeks. It is reported that Wilkin gave himself away while drinking. The authorities were very reticent about the matter, but it is believed the men answer the description of those wanted for the crime.

No Firewater for Lo.

Washington, April 10.—The House Committee on Indian Affairs to-day ordered a favorable report on the bill to prohibit the sale of intoxicating liquors to Indians to whom lands have been allotted. This resolution was made necessary by a decision rendered by Judge Dallinger of Oregon, who held that the sale of liquor to Indians who had taken allotments was not a violation of the present law regarding the sale of liquor to Indians.

Oregon Conventions.

Portland, Ore., April 10.—The Republican State convention adopted resolutions favoring the enfranchisement of women, against silver and instructed the delegates to the national convention to vote for McKinley.

The Democratic State committee reconvened this morning at 10 o'clock. Delegates to the national convention were elected as follows: Dr. Ogelsbee of Wasco; Edward Kelleather of Multnomah; J. M. Carroll of Union; John Burnett of Benton.

The Gold Reserve.

Washington, April 10.—The Treasury gold reserve at the close of business today stood at $127,634,461. The withdrawals for the day were $130,000.

UNCLE SAM HAS A BIG ESTATE.

And Its Expenses Are Enormous.

A FEW APPROPRIATION BILLS.

Some Things the People Are Called Upon to Pay Liberally For—Not Much Money Is Wasted Either In Any Way.

Washington, April 10.—(Special.)—If you want to get an idea of the vastness of this country, consult some of the appropriation bills recently passed by congress. Take, for example, the sundry civil bill, a measure in which appropriations for all sorts of purposes not otherwise classified are dumped, as its title would indicate. Some of the items in this bill will give the reader an idea of the vastness of the country and also of the almost endless responsibilities of the government. For instance, here is an appropriation of $19,500 for relief of the native inhabitants of Alaska, the poor children of nature, who would starve if Uncle Sam did not help them out. Besides this we spend $30,000 a year for educating those natives and $5,000 in the experiment of raising reindeer for their use. One of the surprising items of the bill is $577,000 for artificial limbs and appliances for disabled soldiers. The appropriation for this purpose last year was only $132,000, but Chairman Cannon of the appropriation committee of the house explains that the maimed veterans are entitled to renewal of their artificial limbs every third year, and that this is the year when most of them get a new outfit.

The Janitor Business.

It must be a pretty big country in which it costs $810,000 a year to pay the salaries of the custodians and janitors of public buildings. No wonder Uncle Sam is poor when he is in the janitor business to that extent. Why, it costs $52,000 a year to keep the public parks and grounds in this city in good trim, and none of the money is wasted either. This is exclusive of the capitol grounds, which take $12,000 more. To light the capitol one year costs $21,000 and to keep it in repair $25,000. The White House is almost as expensive. Its "expenses" are put down at $39,000 a year and lighting at $15,000.

Uncle Sam spends a good deal of his money for printing and engraving. The appropriation for the coming fiscal year for engraving and printing, which means for the manufacture of money, securities, revenue stamps, etc., is $1,100,000. In addition to this it costs considerably more than $1,000 a week for the distinctive paper used for the printing of government securities. For public printing and binding, which means the government printing office, the appropriation is $3,110,000, or $10,000 for every working day.

It costs the government $125,000 a year to enforce the Chinese exclusion act and $100,000 to enforce the alien contract labor law.

Specimen Items.

The United States has a lot of many separate establishments of which the people do not hear much, but all of which have to be supported, and the aggregate cost is a very pretty sum. Not a few of these concerns are appropriated for in other bills, but the following appear in the sundry civil:

The coast and geodetic survey, which triangulates the coasts and mountains, costs $360,000 a year.

The fish commission, which introduces food fishes to the waters of all parts of the country, requires $310,000 a year.

The geological survey, which makes scientific examinations of the country, cannot get along with less than $447,000.

Homes for disabled volunteer soldiers cost $2,467,000 a year and in addition to this appropriation $725,000 is given in aid of homes for soldiers and sailors in states and territories.

The interstate commerce commission, which will amount to something under recent decisions of the supreme court, requires $223,000 a year.

The life saving service, one of the most admirable branches of the government system, is supported on $1,537,000 a year, while the lighthouse establishment, including beacons and fog signals, eats up $3,042,000.

The revenue cutter service, which comprises a fleet of vessels for the protection of the coasts against smuggling, costs $990,000 a year.

The improvements of rivers and harbors already authorized by law require $2,575,000.

Among the interesting items to be found in this hodge podge budget are the following:

For publication of records of the rebellion, $145,000.

For suppressing counterfeiting and other crimes, $50,000.

For the Washington monument, $11,500.

For the Yellowstone National park, $35,000.

For headstones, etc., in national cemeteries, $220,000.

We Are the People.

For fuel, lights and water for public buildings, $900,000.

For furniture for public buildings, $150,000.

For Chickamauga and Chattanooga park, $75,000.

For recoinage of gold coins, $5,000; for recoinage of silver coins, $100,000.

For the astrophysical observatory, Smithsonian institution, $10,000.

For target range at Jefferson barracks, $18,000.

These items give a good idea of the multiplicity of the demands which are made upon Uncle Sam's purse.

An appropriation which will please many people is $25,000 to defray the expenses of a scientific commission to report the best means of preserving the forests of the United States.

It is indeed a great country and a great government. WALTER WELLMAN.

NEWS FROM MADRID.

Spanish Views of the Cuban War and of Weyler.

Senor Felix Yzanaga, a distinguished lawyer and statesman of Madrid, arrived here on Sunday on the Fürst Bismarck. Senor Yzanaga belongs to a prominent Cuban family well known in the United States. He is a personal friend of Dr. Francisco Ply Margall and Dr. Nicolas Salmeron, the two Republican leaders of Spain, and he has contributed largely to El País and La Justicia, the Republican organs at Madrid.

When asked by a reporter of The Sun about public feeling in Spain with regard to the war in Cuba, Senor Yzanaga said:

"The war is not popular in Spain. The people know that all the sacrifices they are making to keep Cuba are only for the benefit of the official classes and some private companies interested in business with the island. The state of public opinion may be discerned in the press. The Conservative organs obey the orders of the government, but the independent newspapers, which have the largest circulation, as El Heraldo, El Liberal, and El Imparcial advocate the concession of political and economical reforms to Cuba. A well-known writer on military affairs, Senor Genaro Alas, is publishing now in La Correspondencia de España a series of sensational articles, in which he proves that Spain must stop the war and grant liberty to the Cubans.

"This war might be called the war of Canovas. He and the proud politicians who surround him aim at the extermination of the insurgents. As to Senor Sagasta he does not dare to give any definite opinion. If he is composed of so many different elements that he fears that a declaration from him which might satisfy Gamoza would not satisfy Moret, Vega Armijo, Montero Rios and the other prominent Liberal leaders. The same divisions exist among the Republicans, notwithstanding the fact that if they all unite they could easily overthrow the monarchy. There is a strong belief in Madrid that if such men as Salmeron, Pi, and Azcarate give up all their differences and form one Republican party Canovas and Sagasta will have no forces to oppose them, now that the war of Cuba is exhausting all the resources of the monarchy.

"Senor Salmeron thinks that Spain's duty is to grant home rule to Cuba without any delay. Senor Azcarate is of the same opinion. Senor Pi declares in his weekly paper, El Nuevo Regimen, that perhaps it is too late for such a measure, and that in that case the best thing for Spain as well as for Cuba is the independence of the island. But this declaration is described by the monarchists as an anti-patriotic propaganda in behalf of Spain's enemies.

"I called on Senor Pi the day before I left Madrid—the 20th of March. Speaking about Cuba, he told me that in the autumn of 1872 a representative of a powerful banking house of the United States had asked his advice about the plan of raising a loan of $50,000,000, guaranteed jointly by Spain and the United States. The purpose of the loan was to indemnify Spain for its properties in the island, and also indemnify the owners of slaves in Cuba, provided a treaty of peace should be made with the Cuban insurgents, by the terms of which after 20 years more of Spanish possession the independence of the island should be granted. Senor P. did not think the matter important enough but the next year, when he was Minister of the Interior, the plan was presented to him again. He spoke about it with Figueras, President of the Spanish republic at the time, and Figueras ordered Emilio Castelar, then Minister of State, to inquire through General Sickles, Minister of the United States at Madrid, what the opinion of his government in the matter was. General Sickles did not answer very clearly at first, but afterward said that he had instructions from his government to support the proposal. A council of the Cabinet was immediately held, and the negotiations went so far as an agreement on the form of the treaty and of the contract for the loan, but Fabio, Minister of Finances, and Soler, Minister of the Colonies, quarreled with Castelar because, they claimed, the discussion of the affair, time was lost, and nothing could be done. I am fully authorized by Dr. Margall to make this statement and to declare that he still believes a peaceful arrangement of the Cuban question in the same way would be of great advantage to Spain.

"Asked about the feeling in Spain toward the United States, Senor Yzanaga said: 'On the lower classes and among some more or less educated classes there is a strong sympathy for the United States, which would be formed perhaps into a desire for a war with the United States to be conquered. The success of England, France and Germany is only a matter of envy here among vulgar minds. Dr. Nuelos Regimen said on March 22 that Spain has no resources to fight this country, and in the Congress of Madrid Senor Alas gave a lecture in which he explained what a powerful nation the United States of America is.

"'What is the opinion in Spain about Weyler?' asked The Sun representative.

"'Weyler is a failure in the eyes of all Spaniards,' answered Senor Yzanaga. 'The second invasion of the provinces of Havana and Pinar del Rio by the insurgent forces of Maceo forced him his popularity. Now it believes his official dispatches. Some newspapers have remarked lately that it was very strange that after the many encounters with the insurgents reported by General Weyler in which he reported that he had captured thousands of horses, he ordered the sending of Havana of the remounts of cavalry horses owned by the cavalry company to supply a small detachment of cavalry of 200 men. In Madrid they report Senor Canovas as saying:

"'I want Weyler to Cuba as a general, and I find now that he is only a war correspondent.'"

Senor Yzanaga believes that the United States will be obliged to interfere in Cuba very soon for reasons of common humanity. "Before a year ends," he said, "the country will be destroyed and nothing will remain of the once beautiful and rich Pearl of the Antilles. The recognition of the belligerency of the Cuban army is but a question of justice, and the action of the House today is the natural consequence of Spain's conduct in the war."—(New York Sun.

RARE HILLS DISTRICT.

Strong Company Formed to Test the Camp by Development.

A company has been formed in Denver and will be organized in a day or two for the promotion of a new mining district, located in the Rare hills, 10 miles west of Cripple Creek, where a large number of very promising locations have been made, and where it is anticipated that a large amount of the overflow from Cripple Creek will drift during the coming season. The company has obtained a 99 years' lease on a school section, and has besides, located other mining claims on the land outside of the section. The mining district has been entered the Rare Hills Mining district, and the company has taken the name of the Rare Hills Gold Mining and Land company. W. H. Yankee has been appointed superintendent of the company, and is now on the ground superintending the erection of a hotel, several stores, a blacksmith shop, livery stable and corral, etc.

Ogilvie Cross & Whitman's geological map of the district is noted as having practically the same formation as Cripple Creek, and the investigations so far made certain the map. A large phonolite dyke crosses one corner of the school section, and another has been uncovered in the hills east of the townsite, which has been laid out by the company. These phonolite dykes are in contact with porphyry in every instance. Work has already been commenced on a number of the dode claims, both by the company and other parties, and results obtained from 10-foot holes are exceedingly encouraging, assays having been obtained running from $[illegible] to $100 in gold per ton. Parties who claim to have made a thorough investigation of the territory are inclined to be somewhat enthusiastic over the prospects of the district, though nothing has been found as yet, other than mere surface indications and specimen assays. A stage line is to be established from Cripple Creek. The entire country for miles has already been staked out and it is anticipated that there will be a rush for the district as soon as the season opens. The promoters of the townsite schemes are Biddle Reeves, Lyson Dines, William G. Nelson, Fred A. Williams, H. H. Thomas, Charles Clinton, W. J. Puckett, Hallett Foster and C. L. McIntosh.

LETTER LIST.

RAILROAD LOCALS.

RIO GRANDE.

GO TO DENVER VIA THE RIO GRANDE RAILROAD.

Six daily trains: Leave at 3.50, 4.50, 7.55 and 9:47 a. m.; 2:39 and 7:01 p. m.

Buy your tickets at city ticket office, 16 North Tejon street.

New train to Trinidad via the Rio Grande. Train leaves Colorado Springs 4.15 p. m., arrives Trinidad 9.45 p. m. every day.

Take the Rio Grande to all Mountain towns and mining camps. Low rates. City ticket office 16 North Tejon st.

RIO GRANDE

To Cripple Creek. Special daily train leaves at 1:25 p. m. Buy your tickets and secure your berths at city ticket office.

New schedule to Trinidad via D. & R. G. R. R.

RIO GRANDE

To Glenwood and return, good 30 days, $18. To Aspen and return, $18.

Rio Grande to California—2 daily trains, 11:13 a. m. and 10:2[illegible] p. m. Through sleeper, $50 round trip, good nine months. City ticket office 16 North Tejon street.

SANTA FE.

CUT RATE TICKETS.

Commencing to-day, March 25, the low rate tickets will be sold by the Santa Fe route, for the following trains, only:

To Denver, train 605 at 9:19 a. m. and 603 at 2:35 p. m.

To Pueblo, 4:10 and 6:42 p. m.

To Canon City, for train 606 at 4:10 p. m.

To Trinidad, for trains 604 at 6:42 p. m. and No. 6 at 9:42 p. m.

DEMOCRATIC STATE CONVENTION. (Reduced Rates.)

The Santa Fe will sell tickets to Denver and return at two dollars, ninety-cents, April 14 and 15, good for return to 16th inclusive.

Round trip tickets good for five days. Office 14 Pike's Peak ave.

The Gulf road opens all its trains to patrons of the line at the prevalent cut rates, and by the way our cut rates are cheaper than some of those made by other lines.

COLORADO MIDLAND.

THE SHORT LINE TO CRIPPLE CREEK.

In the Colorado Midland railroad; its service to all points in the Cripple Creek district is the best; three trains in each direction every day in the week. The Colorado Midland has a line of special Colorado Springs and Cripple Creek Pullman sleepers, these cars are standard gauge of modern pattern and open for the reception of passengers at 9 o'clock p. m. at Midland depot, Colorado Springs and Cripple Creek; passengers can remain in sleepers till 8 o'clock the following morning if they so desire.

When you go to the gold fields of Cripple Creek or West Creek take the Colorado Midland; its line is the shortest; its time the quickest; its fare the cheapest. Office 104 East Pike's Peak ave.

ROCK ISLAND.

Through tickets to all points East at lowest rates, as well as to Europe via all principal steamship lines at Rock Island city ticket office, 12 Pike's Peak avenue.

EXCURSION RATES

To Southern and Southeastern points for the winter season, via the Great Rock Island Route. For full particulars enquire at city ticket office, No. 12 Pike's Peak avenue.

J. W. Pierce, Republic, Ia., says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself. Colorado Springs Drug Co.

Children with pale, bluish complexions, indicating the absence of the requisite red globules in the blood, should take Dr. Sawyer's Ulestine.

Experience and money cannot improve Dr. Sawyer's Family Cure, because it radically cures dyspepsia, liver complaint and kidney difficulty.

Dr. Sawyer:—

Dear Sir: I can say with pleasure that I have been using your medicine, and will recommend it to all suffering ladies.

Mrs. W. W. WEATHERSHEE.

Augusta, Ga.

For sale by Colorado Springs Drug Co.

Smooth roadway. Quick time. Perfect passenger service. Uniformed train porters for the convenience of first and second class patrons. Through sleeping cars between Chicago, Buffalo, New York and Boston. Unexcelled dining car service. No change of cars for any class of passengers between Chicago and New York City via the Nickel Plate road. J. Y. Calahan, general agent, 111 Adams St., Chicago, Ill.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Co.

One Minute Cough Cure is highly esteemed. It affords instant relief from suffering when afflicted with a severe cough or cold. It acts on the throat, bronchial tubes, and lungs and never fails to give immediate relief.

Do You Want To

Make a thousand per cent. on your money in sixty days? then go to North Cripple Creek to the auction sale of town lots, April 8th and 9th. Only two dollars for round trip including ten miles stage ride through the famous Manitou Park.

Don't fail to take advantage of this opportunity but go and see for yourself; those who get in early will receive the largest returns.

A few five-acre tracts of mining ground on patented land; these properties to be sold to highest bidder.

Tickets on sale at 10½ East Pike's Peak ave.

An Affidavit.

This is to certify that on May 11th, I walked to Mellen's drug store on a pair of crutches and bought a bottle of Chamberlain's Pain Balm for inflammatory rheumatism, which had crippled me up. After using three bottles I am completely cured. I can cheerfully recommend it.—Charles H. Weizel, Sunbury, Pa. Sworn and subscribed to before me on August 10, 1891.—Walter Shipman, J. P. For sale at 50 cents per bottle.

Only one day on the road, via Missouri Pacific railway. Colorado Springs to Kansas City, St. Louis or Chicago. Secure Pullman reservation of J. M. Ellison, Gen'l Agt. D. & R. G. Ry., Colorado Springs, Colo.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles.

Soothing, healing, cleansing, DeWitt's Witch Hazel Salve is the enemy to sores, wounds and piles, which it never fails to cure. Stops itching and burning. Cures chapped lips and cold sores in two or three hours. Colorado Springs Drug Co.

During the winter of 1893, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I used several kinds of cough syrup but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brough about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle.

One Minute Cough Cure touches the right spot. It also touches it at the right time if you take it when you have a cough or cold. See the point? Then don't cough. Colorado Springs Drug Co.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgus, Keokuk, Iowa, writes: "I have been a minister of the Methodist Episcopal church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this ideal Cough Remedy now. Trial bottles free at Baker & Co.'s Drug store.

A high liver with a torpid liver will not be a long liver. Correct the liver with DeWitt's Little Early Risers, little pills that cure dyspepsia and constipation. Colorado Springs Drug Co.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe Kidney trouble for many years, with severe pains in his back and also that his bladder was effected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50 cents for large bottle. At Baker & Co.'s drug store.

Hot Springs, Arkansas, the Carlsbad of America.

Owned by the United States government and under its direct supervision, is only reached by the Missouri Pacific railway. Your choice of routes via Wichita and Coffeyville, Kansas City and Coffeyville, or Kansas City and St. Louis. Special round trip rates all the year round. For full information call on J. M. Ellison, Gen'l Agt. D. & R. G. Ry., Colorado Springs, or write C. A. Tripp, G. W. A. Mo. Pac., or E. E. Hoffman, T. P. A., Denver, Colo.

Don't invite disappointment by experimenting. Depend upon One Minute Cough Cure and you have immediate relief. It cures croup. The only harmless remedy that produces immediate results. Colorado Springs Drug Co.

The shortest line from Chicago to New York and Boston via Fort Wayne, Cleveland and Buffalo, operates a perfect passenger equipment with a first-class roadbed and an exceptional service of Wagner Sleeping and Buffet cars. Rates always the lowest. For information as to rates, time of trains, etc., call on or address J. Y. Calahan, general agent, Chicago, Ill.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Colorado Springs Drug Co.

My Dear Major:—In answer to your very kind wire, I would suggest you take Rio Grande No. 11, connection via Pueblo, and the Missouri Pacific "Fast Mail" No. 8, which will give you a through Pullman buffet service from Colorado Springs to St. Louis, Mo., and will save you 12 hours' time to New York city over any other route, and give you an opportunity of seeing the Grand Central Terminal station of the Missouri Pacific railway at St. Louis, Mo., which is by all odds the largest and finest structure of its kind in the world. Let me hear from you on your arrival in New York and how you enjoyed the journey.

Sincerely, THE COLONEL.

Notice of Deferred Annual Meeting.

Notice is hereby given that the deferred annual meeting of the stockholders of The Work Mining and Milling company will be held at the office of the company, rooms 41 and 42, Hagerman building, Colorado Springs, Colorado, on Friday, May 8th, 1896, at 3 o'clock p. m., for the election of directors for the ensuing year, and for the transaction of such other business as may properly come before said meeting.

Books for the transfer of stock will close on May 3rd, at 3 o'clock p. m., and reopen two days after the final adjournment of the meeting.

Dated at Colorado Springs, Colorado, April 6th, 1896.

By order of the board.

J. ARTHUR CONNELL, President.
P. E. CLELAND, Secretary.

Colorado Springs, March 27, 1896.

The annual meeting of the stockholders of The Colorado Pinery and Land Company, to elect members of the board of directors, and transact such other business as may lawfully come before the meeting, will be held at the principal office of the company, at Colorado Springs, in the State of Colorado, on the first Monday in April, A. D. 1896, at 12 o'clock noon.

C. F. GODSHALL, Secretary.

Colorado Springs, March 16, 1896.

Notice is hereby given that the annual meeting of the Franklin Gold Mining company, will be held at the office of the company, 25 North Tejon street, Colorado Springs, Colo., at 3 o'clock p. m., on the 16th day of April, 1896, for the purpose of electing directors for the ensuing year.

W. L. COOK, President.

DISEASES OF THE SKIN.

The intense itching and smarting incident to eczema, tetter, salt-rheum, and other diseases of the skin is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, fever sores, and chronic sore eyes. For sale by druggists at 25 cents per box.

Try Dr. Cady's Condition Powders, they are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge.

Gents' Bicycle Shoes.

The famous Norman & Bennett bicycle shoes, the best in the country. Made in tan and black. L. A. W. pattern. See them before you buy.

Hinsdale	4	Sedgwick	3
Huerfano	11	Summit	4
Jefferson	13	Washington	4
Kiowa	8	Weld	19
Kit Carson	4	Yuma	4
Lake	23		
La Plata	9	Total	711

The chairman of the Republican county committees of the respective counties of the State will take due notice of this call, and make the necessary arrangements for the election of delegates to the State convention as herein provided.

IRVING HOWBERT,
Chairman of the Republican State Central Committee of Colorado.
W. D. TODD, Secretary.
Denver, Colo., March 23, 1896.

WATER FAMINE—ALREADY.

With the return of the warm days of spring the demand for irrigating water begins once more, and a larger number than ever will require the services of the ditch men, and use of water on the lawns. It is extremely significant that earlier than ever before there has been complaint of the insufficiency of supply in certain sections of the city and that it has been found necessary to issue the proclamation regulating the use of water for irrigating purposes in the first full week of April.

The gravity of the situation brought so forcibly to the public notice is sufficient to warrant its careful consideration. For many hours on Thursday afternoon and on Friday, a number of houses in the northern part of the city were entirely deprived of water supply, while in a much larger area the supply was scanty and insufficient. The consequences of such a condition are evident. The conditions of ordinary cleanliness and hygiene become impossible, cooking is at an end, and in case of fire there is absolutely no protection whatever.

All the people of Colorado Springs must see at once that this condition of affairs must not continue any longer than the time necessary to amend it. If it is this bad in April, it will be much worse in June and August and September.

The cause of the trouble seems to be that the city has outgrown its distributing system. Attention for the past few years has been directed to securing an increased supply and the construction of reservoirs. Comparatively little has been done in the way of new and larger water mains within the city limits. What has been done has been done wisely and well, but if the city is to grow it is not sufficient to have myriads of gallons of water in the mountain reservoirs; there must be water mains enough to carry the supply to the houses. The city system must be expanded and enlarged. The time has come when the plans about which so much has been said must be put into execution. If building continues to the north, there will have to be in the near future a north supply reservoir and high-line water main.

But this permanent relief cannot be secured all at once, and in the meantime something must be done right away for the water supply of such houses as are already connected with the city water system, whose owners are paying water rents to the city and have as much right to a share of the city water as any others. As a temporary relief the upper or Cheyenne Pondera main might be separated from the lower mains as an exclusive North End supply. Perhaps the city should be divided into four irrigation districts, instead of two as at present, and the use of irrigation water restricted to six-hour periods on alternate days. The first step towards permanent relief might be the extension of the big 16-inch main north on Tejon street from Willamette. The water from the Pike View reservoirs might in some way be used for irrigation so as to relieve the demand for hose service from the pipelines.

But whatever is done, and however it is done, some measure of relief should be undertaken without further delay, to save the city's reputation and to protect its interests. We cannot afford to have the building operations stopped; we cannot afford to have the Glockner Sanitarium closed. We cannot afford the risk of damage suits against the city resulting from insufficient domestic water supply and failure of fire protection. Temporary relief of some kind must be afforded at once, and a permanent extension of water mains provided as soon as possible.

DEEP MINING AT WEST CREEK.

It is with a sense of gratification that The Gazette notes that some deep mining is actually to be done in the West Creek district.

It has been generally admitted for some time that this is what the new gold fields required, but capital has been shy, and as deep mining requires considerable money, the prospectors have found themselves at a great disadvantage.

Those who have stuck by West Creek since the early days of the camp still have the greatest faith in the district, the good values from float found on the surface is too good an indication, they say, to be given up, for there must be more of the same kind and in place where this alluring rock came from. Pay ore in quantity does not appear to be very near the surface, however, so it is argued that it will be found at depth, and with the end in view of proving this idea the district, or, more properly speaking, several of its inhabitants, have formed themselves into a kind of co-operative society to work on a chosen property, which it is quite likely will prove of considerable pecuniary benefit to the co-operatives as well as to the whole district.

The idea of proving the district in this manner has met with hearty approval, and Mr. A. R. Miller, an old Leadville miner, has been put at the head of affairs. After a careful examination he has selected the Proctor Knott lode to be worked upon, and the claim is to be developed by a tunnel which in sixty days, it is thought, will put the men 500 feet under cover and about 150 below ground. The work will be done by the miners of the district, who will receive three shares of stock in the company which now owns the property for every shift of work done, thus giving the miners an opportunity to show their belief in the district—an opportunity of which they have not failed to take advantage.

It is such things as these that build up the West, and those who are interested in this proposition deserve great credit. The faith they are showing in the district in which they are interested should alone do it much good.

A BICYCLE ORDINANCE.

There are always a number of matters which require the attention of a new council. Some of them are the result of a change of policy determined by the people at the preceding election, some of them are matters left over from the former council, some of them are a consequence of the increased growth of the city. There is always a disposition, usually a very proper one, as the term of a council draws to a close to leave to the new council the settlement of questions especially of a permanent nature, or involving an expense which must be met in the coming year, or concerning which there is a marked difference of opinion in the old council.

This year there is perhaps less than the usual amount of this sort of thing, for the old council has done its work fairly well, and the new will not, we presume, adopt any striking changes of method or policy.

Among the measures which the new council should add to the municipal ordinances, as first in importance we place a good, sensible, fair and effective ordinance regulating the traffic of the streets. Not a day passes, scarcely an hour, but what there is imminent danger on the streets of collisions between footmen, bicyclers, and horses and vehicles, and actual collisions are a great deal more frequent than they should be.

To some extent the trouble is due to a reckless disregard of the rights of others but still more to the fact that there is nothing authoritative to say what one's rights are, or to give redress when those rights are invaded. The present ordinance is insufficient and ineffective, and scarcely does more than to prevent riding on the sidewalks.

The new ordinance should give bicyclers a right of way alongside the street car tracks, either on the left side or the right, as against all vehicles coming in the opposite direction; it should provide for a minimum distance from the curb in turning corners, especially to the left; it should prohibit "scorching" within the city limits; it should prevent unnecessary obstruction by trucks and carriages; it should punish the throwing or dropping of stones, glass, boards and blocks of wood in the streets; and it should give the pedestrian the right of way at all crossings. The use of bells should not be made compulsory, because that involves the idea that it is the footman's business to get out of the way when summoned to do so. The contrary is the truth. It is the bicycler's business to avoid running into anyone, and if a bell is at all necessary it should be carried by the pedestrian.

The ordinance now in force in Denver is complete and sensible. If the new council will give us one like it they will deserve the thanks of all, whether they drive a horse, ride a wheel, or go afoot. Colorado Springs people only need to know what they ought to do to do it, but the present condition of affairs where one knows neither what are his own rights nor those of other people, is highly exasperating.

HOW FREE TRADE HELPS THE FARMERS.

Near Canandaigua, N. Y., potatoes are so cheap that farmers are throwing them away. One man is burning them in his stove and says they make a very hot and steady fire. At some auctions of farm property held lately, tubers sold at 25 cents a bushel, and in many instances no bids could be secured.

A somewhat similar condition of affairs exists nearer home. In western Colorado potatoes are being left to rot in the pits where they were stored last fall, because they are not worth the cost of hauling to market. Sales have been made at less than 20 cents a hundred, or less than 12½ cents a bushel, and there is little market even at these prices. In the same regions alfalfa hay has been sold for $2.50 and less per ton.

Now, the beautiful theory of the free traders was only that if the tariff was removed, if the tax on the producers for the benefit of the millionaire manufacturers were taken off, farmers could buy freely in the cheapest and sell in the dearest market, and everything would be lovely. But the first effect of a measure that approached towards free trade, was to close the factories, for the manufacturers would not continue production on the old scale until they had seen what the new conditions meant. Next came an immense increase in imports of all kinds. Next every person in the United States in greater or less degree began to feel the curtailment of the payrolls, and to cut down expenses. The decreased demand for all kinds of manufactured goods made it impossible for the factories to resume, for the goods could not be sold if they were made. But said the free traders, the farmers would not suffer; in any event people must eat. But they ate less; they had to. They peeled their potatoes thinner; they cooked four for a family of four, instead of cooking a half dozen; and actually used less when the farmer sold potatoes at ten cents a bushel than when he received twenty-five cents. If the free-trade calamity had been complete instead of partial, and if it had been permanent instead of periodic, there would also have come to the farmers the competition which had been predicted under such circumstances, that is to say, the workingmen who had been thrown out of employment would have engaged in agriculture. To a certain extent this has happened. The skilled worker of the factory does not all at once become an agriculturist, but the armies of tramps through the rural communities in the past two summers, have included a large proportion of men who were willing to do any work within their power for almost any pay. Cheaper labor inevitably leads to cheapness of prices of products, and the cost of potatoes is connected with the number of wayfarers who are looking for work. We also trace some connection between the low price of the farmer's products of Canandaigua and the relief work inaugurated at Detroit and imitated in other cities, where the unemployed factory hands were set to cultivating potatoes in vacant city lots.

In all these things, Colorado men and especially Colorado farmers are directly interested. When grapes from New York city are sold in Colorado Springs at 15 cents a basket it is folly to say that Colorado farmers are independent of Eastern competition. Few persons know how many sacks bearing the Colorado label are filled with flour from Kansas and Nebraska, or what quantities of butter and eggs and other farm products are shipped in to cut down the market to the Colorado farmer. We all do know what free trade or an approach to it means to the Colorado woolgrower and the Colorado iron worker; we all know what the removal of the sugar bounty meant to the "infant" sugar beet industry of the West.

Low prices in the East means low prices in the West; low wages in the East means low wages in the West just as soon as the trains can bring us the unemployed; prosperity in the East means increased prosperity here.

A Plea for the Flowers.

To the Editor of The Gazette:

We would like to inquire which is the most sightly and interesting, a wooden tower with a large expanse of gravel on each side, or the same thing with the edges softened and beautified by clustering grasses and flowers concealing the boards, and the water flowing through a natural environment? It is impossible to understand this war against "weeds," which here in Colorado Springs mean lovely, rare flowers, which are a great attraction of the town. When Nature is so lavish, why are people so unappreciative of her favors, preferring ugliness and bareness to beauty and grace? M.

The Talk of the Day.

The Washington Times thinks that the Edison fluoroscope will be immensely popular as an opera glass attachment behind theater hats.

Nothing left.—"Yes," he sadly faltered, "my wife left my bed and board."

"And mine," bitterly rejoined the other, "didn't leave a thing."

And the Zeitgeist, which chanced to be passing that way, shivered.—(Detroit Tribune.

John Gillis of Troy, Vt., is the father of 31 children by one wife, and has now 150 descendants.

Really Unjust.—"I have done nothing but blush all day," complained the rose, "and still that idiot of a poet goes on talking of the modest violet, as if there were not others." (Cincinnati Enquirer.

The American tourist recently tramping through Cornwall met some members of a village church choir returning from rehearsal. He asked one of them what music they had been singing. The answer was "Handel." "Well," said he, "but don't you find Handel rather difficult?" "Why, no sir," replied the Cornishman, "not very. You see, we alters 'im."—(New York Tribune.

Thoroughly Posted—Cigar Dealer—Yes, I want a boy here. Have you had any experience?

Youthful Applicant—Lots.

"Suppose I should mix up the price marks in these boxes, could you tell the good cigars from the bad ones?"

"Easy 'nough."

"How?"

"The wust cigars is in the boxes wot's got the purtiest pictures."—(New York Weekly.

In a recent article on "Peculiar Children," Max O'Rell tells the following story: "A boy, reading from a play that was being translated at sight in class, came across the phrase: 'Calmez vous monsieur!' He naturally translated this by 'Calm yourself, sir.' I said to him: 'Now, don'tyou think this is a little stiff? Couldn't you give me something a little more colloquial? For instance, what would you say yourself in a like case?' The boy reflected a few seconds, and said: 'Keep your hair on, old man!'"—(New York Tribune.

Bicycle Insurance.

Many members of the League have written to the Bulletin asking whether or not this organization could secure some practical means of systematically recovering stolen wheels. I would say that I have been for some time negotiating with a responsible concern, with a view of giving this protection to L. A. W. members at a greatly reduced rate, the result of which is an entirely safe factory proposition, which will enable League members to feel that their wheels are protected against theft for the low price of $1 per year.

Under existing conditions the L. A. W. could not enter into any business of this sort, but we have made an arrangement with the American Wheelmen's Protective Association, whose address is Marquette building, Chicago, Ill., to give their guaranteed policy to League members at one-half their regular rates, the regular fee being $2 per year. The consideration given for this reduction is the official endorsement of the L. A. W. and the advertising incident to it. I have investigated the financial standing of this concern very carefully, and find that they are perfectly responsible, and will carry out any contracts which they make. Their method of doing business they will be glad to explain on application.—(Sterling Elliott, Pres. L. A. W.

CAUCUS OF THE DEMOCRATS.

Selected Delegates to the County Convention Next Monday.

SELDOMRIDGE IS ENDORSED

The List of Delegates—Other Local News—The Victor Contested Election Case is in the County Court—Suit Filed Yesterday.

Last evening the Democrats of this city made the first movement in the campaign in El Paso county. The city primaries were held and a set of delegates were nominated to represent the city in the county convention which is to be held next Monday afternoon.

It was a mass convention and was held in the court house. About thirty were present. Mr. J. S. Gibson was elected chairman and H. S. Rogers secretary.

Upon motion it was voted that the representatives from the various wards should separate and choose delegates, and that these should then be endorsed by the mass meeting. This was done and the following were chosen delegates:

First Ward—K. R. Babbitt, W. R. Benzie, Dr. D. C. Christopher, Mrs. F. W. Goddard, R. P. Davies, S. S. Bernard, W. L. Tetley.

Second Ward—A. T. Gunnell, Jr. L. Clark, Dr. A. C. Jones, J. H. Thedinga, H. H. Seldomridge, J. F. Mayhury, S. M. Ashenfelter, A. L. Lawton, E. C. Sheldon, C. C. Hagery, Milo Rowell, W. C. Miller, H. A. Ferguson.

Third Ward—J. S. Gibson, G. D. Kennedy, Andrew Green, W. F. Ridenour, Mrs. C. E. Evans, Delos Powell, W. C. Findley.

Fourth Ward—Phil Strobl, H. S. Rogers, Sherman Bell, T. B. Pyles, G. Alsbury, D. McShane, T. C. McAfee, H. S. Adler, E. W. Duncan.

Fifth Ward—J. M. Swaney, E. S. Cohen, Max E. S. Cohen, George Moberly, G. W. Musser.

After the delegates had been endorsed Mr. George W. Musser presented the following resolution:

Whereas, The Democrats of Colorado Springs recognize the valiant work the Mr. H. H. Seldomridge has performed and is ever ready to perform, for the Democracy of this city, county and State, and know that he is eminently fitted for and is deserving of any position in the gift of his party in Colorado, therefore, be it

Resolved, That the delegates from this city to the county convention to be held on April 13th, 1896, be and are hereby instructed to actively work and vote in said county convention for a delegation from this county to the State Democratic convention to be held in Denver on April 15th, solidly pledged and instructed to present the name of said H. H. Seldomridge to the State convention as one of the delegates from Colorado to the next national Democratic convention at Chicago, and to that end and for that purpose to use their best influences and vote solidly at all times.

Chairman Gibson of the city central committee presented the following names as members of the committee: First ward, Dr. Christopher; Second ward, Van E. Rouse; Third ward, Andrew Green; Fourth ward, T. B. Pyles; Fifth ward, J. M. Swaney.

The meeting then adjourned.

VICTOR ELECTION CASE.

It is in the Courts Through a Suit Filed Yesterday.

Yesterday afternoon Mr. Bruce Gibson, an attorney of Victor, came to the city and in conjunction with Blackmer & McAllister got out papers in a suit which will bring the Victor election case in the county court. There has been talk that something of the kind would be done ever since the election. The complaint recites the facts of the election, and that Doyle and Simonton were the candidates for mayor. It then alleges that the judges of election rejected 186 votes that were legally voted. That Doyle was elected according to the showing by 56 votes, and that had the votes that were thrown out been properly counted that Simonton would have been elected. There are charges of fraud and corruption. It further alleges that Doyle was nominated by a convention of the Populist party, and that said party did not cast 5 per cent of the vote of the last preceeding election. Also that Doyle did not file a written acceptance of his nomination.

The complainants asked the court to have the ballot boxes brought into the court immediately, and this the court granted. An officer left last evening to serve papers on the clerk.

It was claimed by those interested yesterday that an effort would be made to get hold of the ballots by the opposition and the move was taken to prevent this.

ARTISTIC POSTERS.

An Unique Exhibition Now in Progress at the College.

Everyone who can should go to see the Poster show at the College library this afternoon and evening. The alcoves are transformed gayly colored and amusing posters take the place of books—and the reading-room wall is decorated in the same fashion. The collection is a large and interesting one. There are 500 or more posters in it, and the various publishing houses and magazines vie with one other in carrying off the honors in design or in color. Notable among them is the one by Bradley—advertising the Victor bicycle—a bloomer girl with the vermillion hair; —Aubrey Beardsley's Yellow Book poster, and several by Rhead. Each of the above is represented by a number of designs, and all of them are clever. Some very striking designs issued by Prang, illustrating his Christmas and Easter publications attract attention. Another feature of the exhibition is the splendid series of periodical posters of Harper, Scribner and Lippincott and those for the Chap Book. Those which advertise the Sunday World hang in one of the alcoves and are noticeable for their rather daring designs. Besides these there are many which are quiet in tone, and show clever drawing and often much appropriateness to the title of the book or the subject of the article.

Colorado enterprise is represented by some very striking posters published by the Rocky Mountain News.

The exhibit had a large attendance last evening and is to be continued this afternoon and through the evening because of the very general request that a longer opportunity be afforded for witnessing this novel show. The admission is 25 cents and the proceeds go to the Athletic association of the College.

PRIZE DRILL.

Private Spicer Secured the Medal for the Second Time.

The third of the prize drills of the High School Cadets took place yesterday afternoon. The drill is for a medal offered by the officers of the company to the best drilled private. There are to be five drills, of which this was the third. Private Spicer got the medal the first and third times, and Private Dwight the second.

The company fell in in front of the school at about 1:30. The roll was called and about sixty answered to their names. The sergeant then read a report decided upon by the officers Thursday afternoon, saying that if anyone won the medal and then stayed away from school three days without an excuse that he should immediately turn it in to the officers, as he would no longer be a member of the school. Captain Broyton then announced that he had expected that Lieutenant Alexander would be here to judge the drill, but that he had not been able to come. He had, however, secured the services of Lieutenant Anderson, formerly of Fort Riley, Kan., but now of this city.

The first squad fell in and was drilled about ten minutes. The best in this squad were Spicer and Sullivan. The squad was about the best drilled of the lot. Then each squad fell in in turn and was drilled for ten minutes. The best of the third squad were Dwight, Elvay and Weyan. The fourth had for its best Thurlow and Blanchard. The best of the last squad were Cheley and Spicer second.

The captain announced that the following would be in the final single drill, Spicer 1st, Sullivan, Morris, Sill, Dwight, Blanchard and Cheley.

Spicer fell in and was drilled a few minutes. He made almost no mistakes. Sullivan was next and did almost as well. Morris was next, and did very well, but made several breaks. Sill, who has been in the last squad each time followed. He made several errors. Dwight, who got the medal last time, made one or two breaks, the worst being a start to turn to the left instead of the right on a face. Blanchard came next and did fairly well. Cheley was next, and except that he is a little slow, did quite as well as Sullivan.

The whole company then fell in and Captain Morgan announced in a few well-chosen words that the whole company had done very well, and that it was very hard to judge between them. He said that he had decided this time to give the prize to Private Spicer. He then presented it to the winner and gave him a few words of praise. It is expected that the next drill will take place the afternoon of Friday, May 1st.

A DENVER RECORD.

Mr. Wahl Made a Quick Ride to the Capital City.

A bicycle record was established between this city and Denver yesterday and Mr. L. C. Wahl has the credit of riding the distance much faster than it was ever done before, and faster than most people supposed it could be done.

It was exactly 1 o'clock yesterday afternoon when Mr. Wahl left the Colorado Springs postoffice, the time having been taken by Messrs. L. A. Pease, Henry Kamm and Jake Blair, Palmer Lake, 21 miles distant, and the top of the long hill, was passed at 2:28, and the Castle point, Sedalia, at 3:45. The last miles before Denver is reached are sandy and bad wheeling. At Littleton, 10 miles out from Denver, Mr. Wahl was met by Mr. E. W. Swansbrough, who paced the Colorado Springs rider the rest of the way. The Denver postoffice was reached at 5:37.

The time from start to finish was four hours and 15 minutes, and the distance is about 60 feet less than 75 miles. The average time was about 34 minutes to the mile. Considering the character of the road, the sand and the hills, it was a noteworthy performance.

The ride was made under the rules of the Century Road club, and will stand as a record for Colorado Springs and Denver riders. It is the first record for this ride established under club rules. The best previous time reported for this distance was five hours and 41 minutes.

A Pleasing Concert.

Last evening one of the nicest concerts ever given in a church in the city occurred at the First Baptist church. It deserved a much larger audience. Chief among the attractions was Edgar Taylor's splendid tenor voice. Mr. Taylor's splendid tenor voice was heard to good effect. He has a rich, full voice, but it is with the lower notes that he produces the most melody.

Mrs. Adele Weber Banta, the reader, was greatly appreciated. Her humorous selections were the best. She is one of the best readers ever heard here, easy and graceful and very skillful in the handling of her voice.

Miss Miller and Mrs. O. M. P. Wiley sang most charmingly. Both are accomplished vocalists, and received generous applause.

The duet by Miss Miller and Mr. Tenney, the playing of the High School Mandolin club and a piano solo by Mrs. Coolidge were attractive features of the evening's entertainment.

The Bicycle Girl.

Jolly Nellie McHenry in her new play "The Bicycle Girl," will be the attraction at the opera house Monday evening. The theatrical purists have had it that, if farce comedy was not already dead it was dying, but when one sees the immense audiences that the better of these farces draw to the theaters where they are presented, one cannot come to any other conclusion than that it seems to-day to be just as popular an entertainment to the masses who seek amusement through the medium of the theater, as it ever was. "The Bicycle Girl," a cycle-farce-comedy, in which Jolly Nellie McHenry, a favorite soubrette, is the chief enlivening figure, is no more exception to this rule. There is a great deal of catchy music, excellent songs and color and life in this particular farce, much more so than there is in many others of its kind. In the first place, the company presenting it has been generally credited with being one of the exceptional capacity for entertaining and fun making. Miss Nellie McHenry in this class of a play is not an unknown quantity at producing laughter. She has long been one of the most popular figures at stage mischief making before the public. She has probably appeared more continuously in farce comedy than any other actress in America, having begun in that line of work some fifteen years ago, when she played the leading soubrette role in one of the first plays of this order put upon the boards, called "Patch Work." This season she comes in her new play, "The Bicycle Girl," expressly written for her by Louis Harrison. It is a farce comedy with a plot which is expressed by its title, and according to all accounts, met with much greater success than any other stage production to which Miss McHenry has given her vivacious presence.

The American Encyclopædic Dictionary

The undoubted superiority of the American Encyclopædic Dictionary is apparent when compared with other works. It contains 121,000 more words than Worcester, 125,000 more words than Webster, 57,000 more words than the Century, and 25,000 more encyclopædic subjects than the Encyclopædia Britannica.

The only work of the kind published, being a complete and thorough dictionary of the English language and a comprehensive encyclopædia of all branches of knowledge.

It is modern, a thoroughly trustworthy treatise on all the most recent discoveries and improvements.

It is authoritative, having been edited and revised by the ablest specialists of Europe and America.

It is practical, being a reference-work for every one, whether mining man, merchant, mechanic, lawyer, physician, banker, clergyman, architect, farmer, educator or student.

The dictionary is furnished in six large volumes, sold on installments of $3 per month. Volumes can be examined in Gazette office or sample pages mailed on application. Two first-class book salesmen wanted.

R. W. GRAHAM, General Agent.

Wheels All Around.

New York, April 10.—Joseph R. Clark, a Kings county delegate to the national Republican convention, will go to St. Louis on a bicycle. Alderman Clark has organized a club of Brooklyn Republicans, who will accompany him on the trip. The club's organization is called the Morton Cycle legion. The legion will take two weeks to reach the convention.

ARIZONA NOTES.

Some Impressions and Observations of a Casual Traveller.

Editorial Correspondence.

Tucson, Ariz., April 7, 1896.

The first impression one gets of Arizona, like the first impression most people get of Colorado, is one of size. The distances are tremendous. It took me longer to come here from Colorado Springs than it would to have gone to Indianapolis. This county—Pima—is something like a hundred miles wide from north to south, and over 150 long from east to west. The mountains to the southeast—the Santa Ritas—in plain view from here, are from 40 to 45 miles away; and the Mexican line is 20 miles still beyond; and all of it is in this county.

My first impression of Tucson was one of surprise at seeing electric lights in the streets. The next—the following morning—was surprise at the beauty of the surroundings. There are mountains on all sides—all of which are "Santas" of one sort or another, but the only one of which I remember now is the Santa Catalina, to the north and northeast. They rise some 6,000 feet above the plain—accessible with our own Cheyenne in apparent height—and two of the peaks of the Santa Ritas are over 10,000 feet above sea level, or 7,000 feet above the plain. The elevation of Tucson itself is about 2,100 feet.

One of the curiosities here is the "river." I put quotation marks around it, for it is a river only by courtesy. It rises southeast, 90 miles away, on this side of the line, crosses over into Mexico and then comes down here. But it would never get here except by coming a large part of the way underground—it would evaporate otherwise. It comes up once in a while and makes a wet spot and then disappears again. About nine miles below here—to the westward—it ducks under for the last time, and never comes up again. This peculiar stream—if it can be called a stream—is named Santa Cruz. I don't blame it for ducking. This is a discouraging country for water to travel in.

Tucson is one of the most peculiar towns I ever saw. It is about half Mexican, with adobe houses and walls, and little narrow streets. The eastern half is American, with bigger houses, and a big brick public school, with a flagpole beside it, from which "Old Glory" floats every day. North of the city half a mile is the Indian school, a Presbyterian mission to which our Colorado Springs Presbyterian Church contributes; and half a mile or more east of that—way out on the prairie—is the Territorial University, which has one main building, one boys' dormitory (now under construction) and four faculty houses.

This "University" is very new. It has one senior, one junior, and possibly half a dozen lower classmen, and about a hundred "preps." Until this year it had the buildings and a faculty, and no students at all, except incidentally as it were. But the "preps" will grow, and in a few years the college department may be as big as that of Colorado College. The curriculum is a bit little—there is no demand for the classics here, and very little supply. The new president, the Rev. Howard Billman, who was until this year the head of the Mission school, is a first-rate man for the place. He has executive ability, energy, and the faculty of "getting on" with all sorts of people; he is popular in town, is a good citizen and takes an interest in all that concerns the welfare of the city—and indeed of the Territory—and he is a cultured Christian gentleman. If the worry of it doesn't break him down, he will make a success of it. Besides the president, the most notable member of the faculty is Prof. Wm. P. Blake, who has, I understand, an international reputation as a geologist and metallurgist. He will no doubt make the mining department the most important advanced department of the institution.

The ousting of Governor Hughes, and the appointment of Governor Franklin, have created a great deal of excitement throughout the Territory. Both were totally unexpected here. Hughes is a Tucson man, and Franklin is from Phoenix. The Phoenix people are jubilant; and some of the Tucson people are equally disgusted. The reason given here for Hughes's removal is different from anything I have seen in the papers. It appears that the people here wanted to be allowed to lease some of the school lands, and turn the proceeds into the school fund. A bill for the purpose was got through Congress, and Hughes was very active in pushing it. Something in the bill displeased the President, and he vetoed it. Thereupon, it is alleged, Hughes telegraphed to Congressmen to try to pass the bill over Cleveland's veto. This came to the ears of the President, and Hughes's head was marked for the ax. Carlisle found in Mr. Franklin, a loyal Democrat—and, by the way, he is very much of Cleveland's own style of beauty, but much quicker-witted—who was a "gold-bug," and so he was appointed. This is the story from one side. I don't know whether it is true, and give it simply as current political gossip.

The impression is current here that no man can get an office under the present administration—or keep one if he has it—who will not swear allegiance to the golden calf and engage to hold up the gold standard. They believe that the whole power and patronage of the administration is used to crush silver, and that all appointments are made, and indeed all executive acts performed, with that end in view.

The Republicans here are rather pleased with the political situation. The Democratic party is split wide open in several places. There are two or three factions in the Territory, and at least two in every place in the Territory where there is a Federal office in sight. Governor Franklin is besieged by office-seekers by day and by night. There is a line from his office door down to the sidewalk and out in the street, like the line at our postoffice on Sunday noons. The Republicans calculate that the split will grow, and the hatred of the factions deepen, for nine out of ten office-seekers must be disappointed; and this fall the Republicans can elect the Territorial delegate to Congress again, as they did in 1894.

Another interesting bit of local politics is the result of the recent school elections here and in Yuma and Phoenix. In all places it was an out-and-out fight between the Roman Catholics and the A. P. A., and in all the A. P. A. won. Of course the Mexicans are mostly Catholics, and so are some of the Americans; but when it comes to a "show-down," especially on the school question, the anti-Catholic element in the Territory has the majority.

W. A. P.

Y. M. C. A. Notes.

The association has secured Dr. M. LaBiney of Chicago to address the usual Sunday afternoon meeting in the Y. M. C. A. rooms at 4:30. He will deliver his popular lecture entitled "The Origin of the Devil and His Final Overthrow." This lecture has been delivered before various churches and Y. M. C. A.'s and has been received with universal satisfaction. Good music will be one of the attractive features of the meeting. All men invited.

The boys meet in the gym for drill this morning at 10:30. Business men's class at 6 p. m., and class for young men in the evening. Basket ball practice will be in order.

Beginners' Bible class will meet in the parlor on Sunday morning at 9:45 for a short hour before church. The Workers' Bible Study class hold their monthly tea on Tuesday evening at 6:15. Regular session of the class at 7:30.

The tympanum of a whale's ear lies at the end of a long, narrow, bony tube. The hearing of this animal is almost preternaturally acute.

QUALITY IS NEVER SLIGHTED.

No matter how small prices we charge for FURNITURE, the quality is all right. This is not a "cheap" store because the prices are small. We begin by getting the best FURNITURE that the best makers turn out. When we use the word "best," we mean just that. A bad piece of furniture can't come in this store. In buying stocks we get all the discounts that are allowed, because of large purchases and because of cash payments. The prices to us are small and we pass them along to you. Our five floors are crowded with
Furniture Elegance
and if you will take the trouble to make comparisons, you'll find our prices for the best grades are no higher than the next best costs somewhere else.
Colorado Springs Furniture Company,
100 North Tejon Street

BUYERS, WAKE UP!
This is a time we shall make you all remember as a revelation in fine goods and fair prices.
We are going to do business with you because we have exactly what you want and our prices are simply irresistible. Such quantities of new styles as we show in all departments leave nothing to be asked for. In quality and variety our fresh new line spring of 1896 is strictly—first-class in every detail. We have the disposition, the ability and the elegant goods to please every buyer who is seeking bargains in the line of Men's, Boys' and Children's clothing, Hats, Caps and Furnishing Goods, and our popular plan, One Price to all and always the lowest.

Mines, Stocks, Investments

Colorado Springs Mining Stock Association.

Colorado Springs, April 10.—There was a more active market at the Exchange to-day, but it is what might be termed a very nervous one. Taken as a whole, it was fully up to the showing made yesterday, and perhaps a little better, though there are many who doubt its permanency. The heaviest seller of the call was Work, which was credited with over 40,000 sales, and which ranged in price from 10 to 11½. It opened at 10¾ and went lower and a good deal higher during the call, but eventually it closed at 10¾, although there did not appear to be any particular demand for it at that figure. Consolidated opened at the same price at which it closed yesterday, the previous day, and strengthened a point during the call with 32,000 sales, and none offered at less than 10, at the close. Isabella was one of the strongest stocks on the list. It opened with the sale of 500 shares at 52½ and went up to 55 at which figure several 100-share blocks changed hands, though it closed a cent less. The stamped stock sold at 53½ and 54, and both were considerably stronger at the close than the opening. Pharmacist was fairly active at from 7¾ to 8½. Portland opened firm and gained several cents on a light sale. Specimen advanced to 9 and Mt. Rosa appeared to be in good demand at from 6½ to 8. Union was a very light seller, for a change, and remained about the same in price. Creede and C. C. was several points stronger and Hayden slightly so. Argentum-Juniata had over 100 sales in small blocks, which went at from 55 to 56.

Colfax, 1500 at 2¼.

The Nellie V.

During the month of March six carloads of ore were sent out from the Nellie V. which netted the lessees over $10,000 and which showed an average of better than $30 to the ton. All this ore came from the 65 foot level.

The lease on the claim is drawing to a close but it is probable that the company will give some new leases on the north and south ends of the property, reserving the middle portion where the ore has been opened up. Within the past few days another ore chute has been opened up in the vein. The first chute discovered was south of the shaft but the new one is north and adds much to the shipping possibilities of the property.

THE OUTPUT SIZED UP.

President Colliran Talks About Past, Present and Future of the Camp.

"The greatest output Cripple Creek has known during any one month," remarked President Colliran of the Midland Terminal railway yesterday, "was 15,000 tons. The month of January this year showed an output from the camp of 12,000 tons and many uninformed people became alarmed and declared that Cripple Creek was on the wane. The truth is that Cripple Creek never looked as promising from a genuine business standpoint as it does today and I predict that in the month of June the camp will produce 20,000 to 25,000 tons of ore and from that time the production will be maintained at a rate that will effectually silence the gloomy prophets."

The sentiments given above were uttered by Mr. Colliran in response to an inquiry by a reporter, although Mr. Colliran acknowledged that it might be more politic for him to keep silent in view of the number of railways that are projected from different points of the compass to the gold camp. The owners of the Midland Terminal road certainly feel encouraged at the outlook, for it is hardly possible the wages of the men would have been advanced a few days ago without solicitation on the part of the employees. The road is making money and it was felt that the faithful employes should share in the general prosperity. Taylor and Brunton, the production men, have never made a mistake in any of the large plans in which the firm has engaged. You are doubtless aware that the firm has arranged for the construction of the largest reduction works in the State, to be located in the Cripple Creek district and to be built without delay. The buildings are the most substantial of the kind ever planned on the continent and the machinery is in keeping with the general character of the undertaking.

"The fact that men of recognized sagacity are putting their money in the camp is strong evidence that they expect returns. There are rumors afloat concerning the Independence and the Portland, but persons who are acquainted with the management of those properties have no fears of their future. It is all right for the Portland to pass several dividends. When the Portland starts up again it will astonish persons who are not informed as to the values in the property. Mr. Stratton acted wisely in closing down two of his properties. Within a few months these properties will be producing more than ever. The gold-bearing district is widening and there will undoubtedly be some big mines developed in the neighborhood of Gillett. Inquiries from men of capital in all parts of the East indicate that the interest in the Cripple Creek region is almost at a white heat, and after the weather moderates along the Atlantic coast the movement into Colorado will be the heaviest known for many years. The number of inquiries by mail is simply astonishing and it cannot be that the people who have the money to invest are now interested in idle when such promising opportunities for investment are to be found in this State. I conscientiously believe that the mining interest is on the eve of a vast impulse which few can anticipate after a long period of depression."

No man is better qualified than Mr. Colliran to speak of the Cripple Creek region and its possibilities. He was one of the first to foresee the value of the camp and was certainly the first prominent citizen of Denver to invest his own money in the development of the district. As a result of the most careful observations in the Cripple Creek region extending over nearly the years of the history of Cripple Creek, Mr. Colliran says his faith in the camp is stronger today than ever before and his advice to his friends is to look to Cripple Creek for safe and permanent investments. He says the business of the Midland Terminal is increasing steadily and it is necessary to provide additional accommodations to meet the demands of the growing traffic. Mr. Gillett, the retiring general auditor of the Santa Fe road, is a partner of Mr. Colliran in mining and railway enterprises and his faith in Cripple Creek is equally as strong as that of the pioneer railroad man of the district. The temporary relapse in shipments had no effect in dampening the faith of these men in the great gold camp. In the opinion of Mr. Colliran, several large producers will be heard from at an early day, which will out distance all the past records of the camp.

BRIGHT OUTLOOK AT CREEDE.

The Summer Promises to be a Busy One in the Silver Camp.

Development work is being carried on by the prospectors of Creede camp in every direction. Sunnyside in particular. About 15 assessments are being done on the Intermediate, vicinity of the Little Johney. Brandt, Elliott and Gratop are doing the assessment on five claims immediately joining the Little Johney, for Messrs. Wheeler, Boyle, Hunt and Collins, all of whom are old mining men of years' experience, Mr. Boyle being the present manager of the Bachelor mine, and expresses great hope of the Sunnyside district being a great gold producer in the near future. Al. E. Covey & Co. are doing assessment work for Dr. J. P. Wallace, manager of the Nelson Tunnel company, in the same district. Work has also been resumed on the Nelson tunnel, and the Commodore mine, and as soon as practicable a full force will be working.

The men who worked for the Happy Thought of the United leasing company have all been paid recently, and all judgment creditors of the Creede-Moor Mining company have been paid in full, and work resumed on the property. The working of the Holy Moses, Solomon, Reverse and Raney tunnels, together with other properties, will make East Willow a bummer this summer at the upper end, and the lower end is equally as promising, as several enterprises are about to be started on Mammoth mountain, and there is reason to believe that by fall this mountain will be one of the largest producing sections of this camp. The attention of mining men of late has been directed to this mountain, and the result is that the Nancy Hanks company has issued notice of a meeting to be held in Denver on the 16th of April, for the purpose of consolidating with the Mary Anderson property, the object of the consolidation being to run a 1000-foot tunnel. It is estimated that it will cost from $700 to $1000 to run this tunnel, and up to date $200 has been subscribed.

The Mary Anderson lode is located on the same vein as the Nancy Hanks, extending 1500 feet farther down the hill, and the slope of the mountain at an angle of 34 degrees, making it an excellent point for a tunnel. The Anderson people have started their work about 500 feet from their upper end line, and have run a tunnel 300 feet on their vein toward the Hanks ground, and the proposition, compared with a cross-cut tunnel of considerably less than one-half. Good depth is absolutely necessary in this camp, as it has been demonstrated that nowhere in the camp has good depth been gained on a vein but what a pay proposition has been encountered. With two exceptions the 15 producing mines of Creede camp were ordinary prospects until several hundred feet depth had been gained.

O. P. Poole, manager of the Park Regent Mining company, is to come again with the representative of the Colorado Iron Works, for the purpose of erecting a large plant of reduction works to treat the Park Regent gold ore, which is expected to be in running order in about 60 days. The Alpha Mining company are setting their boiler and putting in pumps with a view of making it a more extensive shipper.

The owners of the Hidden Treasure, which is the extension of the Fresh King, near the Alpha, have let a contract to sink 50 feet.

Charles E. Thayer of the Berry Grocery company, has recently opened up several good properties on Shallow creek including the Hilard Map and the "Go to Hell and Go to Extension." The vein in W is in about 7 feet, and a two-foot vein of [illegible] ... ered which averages from [illegible] to 20 per ton.

The Balcombe Tunnel company expects to resume work immediately and continue until the vein is reached. The Economy is another good looking prospect of the Shallow creek country, the entire district is a gold-bearing country where very little depth has been gained, and so far the surface has only shown up with low-grade propositions, and all indications point to the Shallow Creek, Sunnyside and Bachelor mountain being great gold producers. The latter has been established beyond all question of doubt.

Receiver Asked For.

Attorney H. G. McNair of the First National Bank of Aspen has applied to the district court to have a receiver appointed for the Mineral Farm Consolidated Mining company's property, and also asks for an injunction restraining the company from taking ore from the mine. The bank holds the company's note for $9,000, secured by a mortgage on the mine, and suits in regard to the matter have been in the courts for a long time. Pending adjudication of the matter the company has been taking out and shipping ore. Unless this is stopped the bank people fear that there will be nothing left to satisfy their claim. The suit will be heard by Judge Bailey of Canon City, sitting for Judge Bucher of the Ninth judicial district.

Current News.

Mr. Frank Pettingell has gone to Kansas City.

Mr. Edwin Arkell is now on his way to the West again. He left Boston for home yesterday.

An option on 1,000,000 shares of Raven and Pell Hill Tunnel stock has been given to eastern capitalists for thirty days.

It is reported that the Sheriff, located on Raven hill, has been sold to Denver parties. No particulars could be learned in regard to it.

Work on the Taylor-Brunton sampler, to be built near the Midland track on Portland ground, has been commenced, and will be pushed along as rapidly as possible.

Surveys for patent have been started on all of the five claims belonging to the Crystal Palace company. Sufficient work has been done on all the claims to procure a patent.

The winze on the Walcott lease on the Orphan Bell is to be replaced by a steam plant. The shaft is now down 200 feet, and is in good ore that assays all the way from five to ten ounces.

The Moore is now getting out a greater tonnage and better ore than in several months. The new working shaft is now down a little over 200 feet, and three [illegible] ing it.

Good reports are coming in from Little Round Top mountain, located four miles west of Cripple Creek. About thirty men have been prospecting in this section all winter, and a number of good veins have been cross-cut up with assays on the surface from $4.50 to $3.

A good strike is reported to have been made in the Red Rock by lessees. This property is located in the saddle between Tenderfoot and Globe hills and is owned by the C. C. & M. Co. A specimen of the ore showing free gold was being shown around town to-night from the new strike.

Some expert mining men are growing enthusiastic over what looks like wonderful mining properties located on Four Mile creek, two or three miles southwest of Mount Pisgah. A vein 15 to 20 feet in width has been cut by Four Mile creek and assays that have been obtained running all the way from a few dollars to $40.

The El Paso, located in Poverty gulch, and owned by the Gold King Mining company, is shipping at the rate of 20 tons of high-grade ore per month. The average value is about five ounces. The main shaft is down 250 feet and levels are being cut at intervals of 50 feet. A large amount of ore is blocked out. No stoping is being done, and the ore that is being sent to the smelters is being taken out in development. The El Paso is the oldest shipper in the Cripple Creek district, and is looking better than at any time in its history.

Between 50 and 60 men are working night and day crowding the erection of the big mill W. S. Stratton is building at the Independence camp. The excavation is almost completed and the timbers for the superstructure are being prepared, so that no delay will occur between the preparation of the ground and the erection of the buildings. Since deciding to put up the mill for the treatment of his own ores, Mr. Stratton has used every effort to push the work as rapidly as possible. His dissatisfaction with the railroads and smelters, which led him to close down some of his properties, has given all the more cause for hastening the completion of the mill, and now an extra shift of workmen has been employed at night.

Mines, Stocks, Investments

Colorado Springs Board of Trade and Mining Exchange

First Call.

Colorado Springs, April 10—Business opened up in much better shape here this morning. Not only was the trading brisker but it was done better distributed and prices were decidedly stiffer. The improvement noted yesterday was fully sustained at this call and in some instances prices showed a marked advance. The mines list furnished about half a dozen traders with bids and Work the busiest stock. The last market was credited with just 41,000 sales which sold at an average figure of about 10½. Isabella had about half the number of sales that Work did and the price advanced to 51 and held firm. In the prospects there were several good sellers, prominent among which were Crescent, Empire and Empire. Each of these had a total of 20,000 sold, the first two selling at a few dollars per thousand and Empire at about 1%. In the unlisted stocks there were two more 500 sellers in Seven Hills at 2 and Gold Rock and Queen Ale was not far behind with a total of 400 shares at about 2½.

Second Call.

A very fair amount of business was again transacted at these second call although there was hardly so much doing in the mines list. It was made up in other stocks. Bankers and Iron were the heaviest sellers among the first named class of stocks, the one having 200 sales at 11 and Letter and Union 400 at 7½ and 6%. The prospect mines were responsible for an even 20,000 shares which were divided between two stocks. Of the total Buckhorn was credited with 200 and Dante 200 shares, the latter being firmly at 10 at the close of the call. Depress and Hayden Gold each had 200 sales in the prospects but there was little change in either stock. Princess Eulalia had 3,000 shares at $70 per 100 in the unlisted stocks.

EIGHTEEN SHIPPERS READY.

Pine Creek Preparing to Astonish the State.

W. F. Doss, who has just returned from a trip over the Pine Creek district, is enthusiastic over the outlook of that flourishing camp. He reports plenty of snow yet, and very little ore coming out owing to the bad roads, but there are now 18 properties ready to ship, with ore sacked and piled on the dumps waiting for the roads to open.

"It is the best looking camp I have yet seen," said Mr. Doss, "and is going to attract considerable attention this summer when the ore commences to come down both from the quantity of the ore and the average high grade. On the Lillian group they have a tunnel in 62 feet and a body of ore which assays from $127 to nearly $600 per ton for the whole width of the vein, and they have a large quantity of ore sacked and ready to ship. There is a lease on the Lillian property for $40,000. The Golden Crown has a tunnel in 175 feet and is shipping a good grade of ore. The Queen on Arizona Hill shipped last week and averaged $50 per ton. The Golden Crown and the Frank Dispatcher are both expected soon to be shipping. The Nil Desperandum, Washington Hill, Bonanza, Zeff Davis claims so I have to run. The Kansas, on Allegheny Hill, also claims to have ore ready to ship. The Gem mill in the Creek is a five stamp mill on the Bessemer lease, which is said to be making good pay. There is now a school house in the camp that is not in use, and not being used, stands at every door of depredation.

Mr. Doss brought down a number of samples of ore from the different claims which he showed, which appeared to be similar in almost every respect to the ore found around Black Hawk and Central.

Mollie and A. J.

Mollie Gibson, which generally has at least one surprise a week, appears to have gone back on her record since the Denver News, and since the recent ground and work started in done by the company's shares the shifting faith many people here had was such that they did not hesitate to jump at the chip stock, and now they are standing by waiting for another raise and the seemingly doubtful mark they are so confident the stock will some day reach. But when is the unanswered question. There is no doubt but the mine is in good ore and is shipping quite extensively. During March 231 men were employed in the mine and this number has been increased to 140 for the present month. The ore now coming from the Mollie will average all through 200 ounces, according to sampler returns.

Nothing definite has been learned regarding the new workings of the Argentum-Juniata opened by the fifth level connection with the Mollie Gibson. Nothing big has yet been taken out, but from miners it is learned that ore is in the breast of the new drift close to the Mollie line that will run about 50 ounces. No work is being done there at present.

About ten days ago a cross vein was entered in the Grouse, and a couple of men were put to work drifting on it. The small seam did not run better than $10 where it was cross-cut. It has widened out, however, and to-day an assay was obtained about fifteen feet in which went $70. The Grouse is one of the Bankers properties.

EASTERN MARKETS.

NEW YORK STOCK MARKET.

New York, April 10—Money on call has been easy at 3@3½ per cent., last loan at 3 and closing offered at 3. Prime mercantile paper 5@6. Bar silver 58½. Mexican dollars, 50½. Sterling exchange easier, with actual business in bankers' bills at $4.87½ for 60 days and $4.88@4.89 for demand. Posted rates $4.86½@4.87. Commercial bills $4.85½. Government bonds firm. State bonds dull and railroad bonds lower. Silver steady.

While speculation at the stock exchange to-day at intervals was exceedingly dull, yet on the whole the dealings were characterized by greater confidence and strength than on any previous day of the week. The advance in prices was quite general and the improvement was mainly due to a change of sentiment in regard to the probable action of President Cleveland on the Cuban belligerency matter. The fact that the foreign markets for American securities are undisturbed by the action of the House undoubtedly has a good effect.

Still another factor in the day's speculation was the reduction in the rates of sterling exchange which prevented gold shipments by to-morrow's steamers and renders exports of the yellow metal improbable for at least 15 days to come. The bears attempted to check the upward movement in prices by attacking American Tobacco and one or two other specialties which happened to be without effective support. Tobacco was sold down from 84½ to 82½, and closed at a mere fractional recovery.

Despite the selling of Tobacco, the general market continued strong in the free trading. Manhattan scored the greatest rise, selling up from 100 to 105½ on the movement by the city authorities to accord the company increased facilities to extend its lines. The stocks left off at 104½. Sugar was conspicuous for [illegible] on purchases by houses identified with officials of the trust.

The Grangers and Chicago Gas, General Electric, Louisville and Nashville and Tennessee Coal advanced 1@1½ per cent., but there was nothing in the remainder, or the list calling for special comment. Speculation closed firm in tone. Net changes show advances of 1@1½ per cent. outside of Tobacco, which declined ½. Total sales were 193,909 shares.

Bonds were lower. The transactions footed up $1,274,000.

CHICAGO GRAIN.

Chicago, April 10—This being the eve of holiday on which the government issues its monthly report giving the crop of wheat, the market received much of the importance of the occasion, and ruled in a fairly active manner during the most of the session. The market was pretty well cleaned up yesterday and new talks were not considered much until the report is out of the way. There was a moderate sculping trade, with prices early holding quite firm in some advance over the final quotations of yesterday. Liverpool cables were not as active as expected which probably accounted for that. In support we added Chicago receipts were 13 cars and the Northwest had 200. No comparison with last Friday or with the corresponding day last year can be made, both being not days. Withdrawals from store were three bushels. The weather bureau predicts rains for all parts of the winter wheat section, which was encouraging to the bears. A good and large crop of old wheat is still in the session above and offered from, declined below yesterday's close. Closing continental cables were lower. Export clearances were moderate at 250,000 bushels. The close showed a rally from the inside, with last quotations considerably under the outside for the session. Estimated receipts for to-morrow 250 cars.

CLOSING PRICES.

Wheat—April 66½, May 67½, July 68½.

Corn—April 25½, May 26, July 27, Sept. 23½@23¾.

Oats—May 19½@19¾, July 20@20¼, Sept. 20¾.

Pork—May $5.55, July $5.75.

Lard—May $5.12½, July $5.20.

Ribs—May $4.65, July $4.67½.

Chicago Live Stock.

Union Stockyards, Ill., April 10—Cattle—Receipts, 7,000. Fancy beeves, $4.90@5.00; choice to prime steers, $4.15@4.40; good to choice steers, $3.80@4.10; choice feeders, $3.70@4.00; cows, poor to good canners, $1.50@2.35; veal calves, good to choice, $4.25@4.10; milkers and springers, per head, $20@38. Other prices unchanged.

Hogs—Receipts, 18,000. Heavy-packing and shipping lots, $3.60@3.80; common to choice mixed, $3.65@3.90; choice assorted, $3.50@4.00; light, $3.70@4.00; pigs, $3.00@3.10.

Sheep—Receipts, 500. Inferior to choice, $1.50@3.80; lambs, $3.75@4.75.

Weather Indications.

Washington, April 10.—Increasing cloudiness with local rains; northerly winds; cooler.

Dr. E. L. McCreery has removed his offices to rooms 20 and 22 Bank block.

The Poster exhibition at Cobum library will be open this afternoon and evening.

Mrs. Lucius Perkins is to sing at the benefit concert for the public library next Wednesday evening.

A marriage license was issued yesterday to E. C. Hight and Lulu May Allen, both of Cripple Creek.

Mr. Henry W. Gibson and Sarah E. Udell of Peyton were married yesterday in this city by Justice Saxton.

The colored band played in public for the first time on Thursday evening at a social at the A. M. E. church, and their music was quite pleasing.

Mrs. Beswick and daughters, Miss Dollie and Rachael, have returned from a three months sojourn in Pasadena, Cal., and Mrs. Beswick is much improved in health.

The reserved seat tickets for the return lecture by Wendling will be on sale at the Coliseum to-day between the hours of 12 and 1.

S. P. Madiera, J. R. Wisher and R. K. Potter have asked permission from the county commissioners to be permitted to build a toll road from Cripple Creek to High Park, in the Mt. Pisgah district.

Tickets to Denver and return will be sold on the Denver and Rio Grande on April 13th and 14th at $2.50 for the round trip on account of the Democratic convention. Tickets are good returning on the 16th.

County Superintendent Grafton yesterday made the quarterly apportionment of the school fund. This quarter there were $22,000 to distribute, or about $1.97 to each pupil. Of this amount $600 comes to the Colorado Springs schools.

Raymond Reed & Co. yesterday closed the following sales: Property on the Cheyenne road, from William M. Filen to H. W. Howard; consideration $1,250. H. W. Howard to James N. Finch, same property above described; consideration $1,250.

A suit was filed in the district court yesterday by Caroline Lake against Jacob Alling, and asks for an accounting. The plaintiff wants to be declared the owner of 12,000 shares of the capital stock of the T-Bone Gold Mining company.

The teachers and pupils of the public school at Woodland Park have arranged to have a fine time on Arbor day. The chief feature will be the raising of a flag. Arbor day is the 17th. Superintendent Grafton, Judge Morris, M. M. Baldwin and others are going up to participate and make addresses.

The Art Loan exhibition at the El Paso club was largely attended yesterday, the crowds lasting into the evening. The exhibition has been very successful and pleasing, and it is largely to the efforts of Mr. Henry Russell Wray that it has been such a success. As chairman of the committee he had the burden of the work.

Last evening the Kempton Comedy company again appeared at the Coliseum to a large audience. They presented "States Evidence" and the audience seemed well pleased. This afternoon they will give a matinee at which "Little Lord Fauntleroy" will be played. This evening they present "The Temptation of Money."

Colorado Springs has a new band. It was organized on Thursday evening last and will be known as Troop A Band. There are thirty members, and they will be provided with excellent instruments. Mr. D. K. Fowler is to be the leader. It is proposed to organize a movement that will result in having park concerts this summer by the band.

The Good Templars will give an Art Gallery social this evening at the Odd Fellows hall. The musical and literary entertainment will be exceptionally good but the feature of the evening will be the art gallery. No trouble or expense has been spared to make this the finest collection ever brought to Colorado, says the management.

Sheriff Boynton got back from Salt Lake last evening where he has been the past week looking up the men who were supposed to be the express robbers who escaped from the county jail last fall. He drove over to the new camp of Mercur and had a look at the men, only to discover that they are not Barr and Gray.

Evangelist M. Haner is to give three lectures in his noted line, one series. They will be given at the Christian church this evening at 7:30, Sunday at 11 a. m. and Sunday evening at 7:30 p. m. They are entitled "The Cherubim," "The Flaming Sword" and "The Transmission of the Gaelic Law." A special invitation is extended to all honest skeptics.

The men charged with cutting timber on the Pike's Peak forest reservation were before the United States commissioner yesterday for preliminary hearing. The result was that Judge Seyfry discharged Larry Maroney after hearing the evidence for the State, under that indictment there was nothing to hold him on. Mr. Sautter was held in $1,000 bonds and Warnock and Davis were each put under $500 bonds. Hobbett & Hall represented Sautter and Maroney. The cases occupied about one hour last evening.

The law firm of Brooks, Armit and Blackmer has been dissolved. Messrs. Brooks and Armit will continue together and will occupy the old offices in the Bank building. Mr. Blackmer has formed a partnership with Mr. Harry McAlister, Jr., his deputy, and they have secured rooms 25 and 26 in the Bank building, the rooms now occupied by Dr. J. Allen Smith, and the doctor will move up on Tejon street above Kiowa. The new law firm will be styled Blackmer & McAlister. They will move into their new quarters immediately.

District Court.

There was no session in the first division yesterday.

In the second division the business was as follows: Holmes vs. Binford et al., judgment for defendants.

Midland Terminal Railroad company vs. M. Kinney et al., dismissed as per stipulation, so far as the Oride and Delay claims are concerned.

Bennett vs. Shafer et al., application for a receiver appointed.

Henry, LeB. Wills & Co. report the sale of a central business corner in Colorado City from Mrs. Mary S. Brown to Mrs. Kate Boyle.

All Democrats and everybody else take the Denver and Rio Grande to Denver April 14th and 15th, to attend the Democratic State convention. Fare, $2.50 round trip, good until April 16th. Tickets on sale 26 N. Tejon street.

Art Needlework.

A fine assortment of the latest designs in stamped goods for sale at reduced prices, April 10th and 11th. B. and A. silks. Lessons free to customers. Mrs. E. A. Crapsey, 130 N. Weber street.
